The aggregate principal amount of Notes that may be issued under the Programme may be increased from time to time, as authorised by the Issuer. The Notes will be issued on a continuing basis or through one or more Dealers specified herein and any additional Dealer appointed under the Programme from time to time, which appointment may be for a specific issue or on an ongoing basis. The relevant Final Terms with respect to each issue of Notes will specify the main economic features of the Notes which are not known as of the date of this Prospectus.

Part B of the Prospectus
Risk Factors

RISK FACTORS

Before deciding to purchase Notes issued under the Programme, investors should carefully review and consider the following risk factors and the other information contained in this Prospectus. Should one or more of the risks described below materialise, this may have a material adverse effect on the business, prospects, shareholders' equity, assets, financial position and results of operations (*Vermögens-, Finanz- und Ertragslage*) or general affairs of the Issuer. Moreover, if any of these risks occur, the market value of Notes issued under the Programme and the likelihood that the Issuer will be in a position to fulfil its payment obligations under any Notes issued under the Programme may decrease, in which case the holders of Notes (the "**Noteholders**") issued under the Programme could lose all or part of their investments.

Risks relating to the Issuer

Risks relating to the Issuer are presented in the following two categories depending on their nature with the two most material risk factors presented first in each category:

1. Risks relating to the Business of the Issuer;
2. Risks relating to Legal and Regulatory Environment.

1. Risks relating to the Business of the Issuer

Risk of Counterparty Default

The risk of counterparty default is the risk of a loss or a profit not realised as a result of non-payment by a business partner or a deterioration of his or her creditworthiness and/or collaterals. The risk of counterparty default includes the counterparty risk (risk from traditional lending business, replacement risk and the advance payment and settlement risk) and the specific country risk. The realisation of any of these risks could have an adverse effect on Sparkasse KölnBonn's business, results of operations, cash flows and financial condition which could in turn adversely affect Sparkasse KölnBonn's financing conditions or cause the market price of the Notes to decline.

Market Price Risk

The market price risk involves the possibility of a negative change in value as a result of unexpected changes in underlying market parameters such as interest rates, credit spreads, share prices and foreign exchange rates and their volatility.

The net assets, financial position, results of operations and risk position of Sparkasse KölnBonn are therefore particularly dependent on the following factors:

- Fluctuations in interest rates (including changes in the ratio of the level of short-term and long-term interest rates) and the interest rates of the different currencies to each other,
- Fluctuations in credit spreads, and
- Share prices and exchange rates as well as commodity prices.

The effects of fluctuations in the respective markets may result in consequences that have a negative impact on the Sparkasse KölnBonn's financial position and results of operations.

Liquidity Risk

The liquidity risk is broken down into two categories:

- (i) Traditional liquidity risk (insolvency risk and dispositive liquidity risk) refers to the risk that Sparkasse KölnBonn will be unable to meet its present and future payment obligations in due time or in full;
- (ii) Refinancing risk is the risk of not being able to raise the necessary liquidity on the expected terms.

Both categories of liquidity risk accrue particularly from *Market liquidity risk* (the risk of an illiquid market for tradable assets due to specific events), *Drawdown risk* (the risk of customers spontaneously making major drawdowns or making greater use of their credit lines) and *Scheduling risk* (the risk that liquidity will not be repaid in accordance with the contractually agreed payment plan e.g., late payment or loans or extensions).

Should any of the above mentioned risks occur, it may have an impact on the net assets, financial position and results of operations of the Sparkasse KölnBonn which in turn could have a material negative effect on Noteholders' rights (including the risk of total loss of interest and capital invested by the Noteholders).

Shareholding Risk

The shareholding risk involves the non-payment risk as well as the possibility of a negative change in value of shareholdings. Shareholding risks of Sparkasse KölnBonn almost entirely comprise risks from mandatory participations in associated companies (*Verbandsunternehmen*), such as Rheinischer Sparkassen- und Giroverband and Landesbank Berlin Holding AG, which have to be held due to the regional savings bank act. The effects of fluctuations in the shareholdings' values may result in consequences that have a negative impact on the Sparkasse KölnBonn's financial position and results of operations.

Operational Risk

Sparkasse KölnBonn defines operational risk as the risk of loss resulting from inadequate or failed internal processes and systems, human failure, the internal infrastructure or from external influences. It is broken down into the sub-risk categories of human resources- and IT-risk as well as internal procedures (process risk) and external risk. Legal risk also forms part of the operational risk. Any materialisation of the foregoing could have a material adverse effect on Sparkasse KölnBonn's business, financial condition and results of operations, which in turn will have a negative impact on the Notes (including the risk of a total loss of interest and capital invested by the Noteholders).

Strategic Risks

For Sparkasse KölnBonn's purposes, other risks comprise, essentially, strategic risk, which is based upon analysis and assumptions of future developments. The realisation of long-term objectives may be negatively influenced or negated by underlying assumptions which prove to be inaccurate, targets, which are found to be unrealistic, or an inadequate supervision of strategy implementation. Furthermore, other risks include tax and sustainability risks. When any of the risks as mentioned before occur, it may have an impact on the net assets, financial position and results of operations of the Sparkasse KölnBonn which in turn could have a material negative effect on Noteholders' rights (including the risk of total loss of interest and capital invested by the Noteholders).

Tax Risks

Tax risks reflect the possibility of additional taxes being levied from controversial tax positions (especially within the context of the current tax audit (*Betriebsprüfung*)). Furthermore, there may be a tax risk arising from the failure of compliance with requirements relating to the withholding of taxes (on capital gains or interest) creditable to German income tax or the failure to issue proper tax certificates on behalf of clients or staff members of the Issuer. In addition, tax risks may result from recourse claims of clients or counterparts due to the Issuer's activities in the field of tax-driven products or transactions. Irrespective thereof, there is the risk of a change to the current tax legislation.

Reputational Risk

In case of a failure to recognise and adequately manage the afore-mentioned risks, the Issuer may not only be exposed to financial losses but may also suffer reputational damage. Reputational risk is defined at Sparkasse KölnBonn as the risk of damage due to a loss in confidence on the part of customers, business partners or sponsors. In case of a repeated and large-scale recurrence of a risk control failure, the scope of the damage to Issuer's reputation may increase. The risk of reputational damage is not directly quantifiable and cannot be managed and controlled independently from other risks.

Concentration Risk

Concentration risks describe the risks of disproportionate losses that can arise if risks arising from specific positions intensify each other or accumulate to a higher risk as would have been the case if each risk arising from such specific position would be a stand-alone risk. Concentration risks are not a stand-alone risk as they are taken into account when quantifying each individual material risk.

Sparkasse KölnBonn is a credit institution operating at a regional level. It can prove beneficial to accept credit concentrations so as to benefit from information advantages, for example, familiarity with local conditions. Concentration risk in credit portfolios can arise from an uneven distribution of bank loans to individual borrowers (single-name concentration) or in industry and services sectors and geographical regions (sectoral concentration). Concentration risks can result in an increase in the severity of counter party default risks and therefore can lead to a negative impact on the Sparkasse KölnBonn's financial position and results of operations.

Risk associated with former Westdeutsche Landesbank AG

The shareholders had already agreed on stabilisation measures for former WestLB AG as early as in 2009. The Rheinische Sparkassen- und Giroverband (RSGV) is obligated to absorb actual cash losses of the Erste Abwicklungsanstalt (First Winding-up Agency, "EAA") which cannot be offset by the EAA's equity of EUR 3 billion in proportion to its shareholding in the Agency, up to a maximum amount of EUR 2.25 billion. As a member of the RSGV, Sparkasse KölnBonn is thus obligated to absorb losses in proportion to its equity interest in RSGV (- 17.9 percent).

There is a risk that Sparkasse KölnBonn will be called upon to fulfil its indirect obligation in proportion to its interest in RSGV during the expected long-term winding-up period with negative impacts on Sparkasse KölnBonn's financial position and results of operations.

2. Risk factors relating to the Legal and Regulatory environment

Potential non-compliance with own funds, the minimum requirement for own funds and eligible liabilities (MREL) and liquidity provisions may place a substantial burden on the Issuer

Pursuant to Directive 2013/36/EU of the European Parliament and of the Council of June 26, 2013, as amended from time to time, most recently by Directive (EU) 2019/878 of the European Parliament and of the Council of May 20, 2019 (the "**CRD IV**") and to Regulation (EU) No 575/2013 of the European Parliament and of the Council of June 26, 2013 on prudential requirements for credit institutions and

investment firms (as amended from time to time, most recently by Regulation (EU) 2019/876 of the European Parliament and of the Council of May 20, 2019, the "**CRR**", and such amendments referred to as the "**CRD IV/CRR-Package**"), the capital requirements for credit institutions have become significantly tighter in terms of both quality and quantity. In addition to the introduction of the new capital ratios, the CRD IV/CRR Package provides for a transitional phase until 2022 for capital instruments that were recognised as regulatory tier 1 capital before the CRR entered into force, but do not meet the CRR requirements for Common Equity Tier 1 capital.

Pursuant to the CRR, banks are required to maintain a minimum ratio of tier 1 capital (i.e. the sum of the Common Equity Tier 1 capital instruments and the additional tier 1 capital of the respective bank) to the bank's risk weighted assets ("**RWA**") of 6 per cent. and a minimum ratio of Common Equity Tier 1 capital instruments to RWA of 4.5 per cent. The minimum total capital ratio of own funds (i.e. the sum of the tier 1 capital and the tier 2 capital of the respective bank to the bank's RWA is set at 8 per cent. The German Banking Act (*Kreditwesengesetz* – "**KWG**") also requires banks to build up a mandatory capital conservation buffer (Common Equity Tier 1 capital instruments amounting to 2.5 per cent. of RWA), and authorises the German financial regulatory authority Bundesanstalt für Finanzdienstleistungsaufsicht ("**BaFin**") to require banks to build an additional countercyclical buffer (Common Equity Tier 1 capital instruments of up to another 2.5 per cent. of RWA) during periods of high credit growth. The capital conservation buffer and the countercyclical buffer have been phased in from 2016 in four equal steps of 0.625 per cent.; the respective buffer requirements of 2.5 per cent. are applicable since January 1, 2019 onwards. As of the date of this Prospectus, the countercyclical buffer has been set by BaFin to be 0.0 (zero) per cent. from January 1, 2019 onwards. From January 1, 2019 onwards, a mandatory capital conservation buffer in the amount of 2.50 per cent. of RWA applies. In addition, the BaFin may require banks to build up a systemic risk buffer (Common Equity Tier 1 capital instruments of between 1 per cent. and 3 per cent. of RWA for all exposures and, in exceptional cases, up to 5 per cent. for domestic and third-country exposures) as a matter of prevention against long-term non-cyclical systemic or macro-prudential risks, in particular if risk aspects are not fully covered by the capital requirements under the CRR or if the risk-bearing capability is endangered. Given that capital adequacy requirements have been increased and liquidity requirements have been implemented, this may require the Issuer to raise own funds instruments, increase other forms of capital or reduce its RWA to a greater extent which in turn may result in an adverse effect on the Issuer's long term profitability. As a consequence, this may have an adverse effect on the economic or legal position of creditors of the Issuer. Any such change may also have a material adverse effect on the operating results and financial position of Sparkasse KölnBonn.

Directive 2014/59/EU, as amended from time to time, most recently by Directive 2019/879 of the European Parliament and of the Council of May 20, 2019 (the "**BRRD**"), as implemented in Germany by the German Act on the Recovery and Resolution of Institutions, as amended from time to time, (*Sanierungs- und Abwicklungsgegesetz*, the "**SAG**") and Regulation (EU) No. 806/2014 of July 15, 2014, as amended from time to time, most recently by Regulation (EU) 2019/877 of the European Parliament and of the Council of May 20, 2019 (the "**SRM Regulation**") prescribe that banks shall, upon respective request by the competent resolution authority, hold a MREL and specify the criteria relating to the methodology for setting MREL. Recent changes to these provisions have resulted and will result in amendments to the existing rules for setting MREL and the scope of application of a statutory minimum requirement, in particular starting from December 28, 2020 (i.e. the application date of the amendments to the SRM Regulation and the date on which Germany needs to have implemented the amendments relating to the BRRD into national law). The Issuer with a balance sheet total of EUR 27.1 million (as of December 31, 2020) does not fall in the new category of so-called top tier banks. Accordingly, the MREL will continue to be set by the resolution authority and no statutory minimum requirement with regard to the MREL will apply to the Issuer. Under the law applicable on the date of this Prospectus, eligible liabilities may be senior or subordinated, provided, among other requirements, that they have a remaining maturity of at least one year and, if governed by a non-EU law, they must be able to be written down or converted under that law (including by contractual provisions).

In addition, the Issuer is subject to further regulatory requirements such as the Liquidity Coverage

Ratio ("LCR") and the Net Stable Funding Ratio ("NSFR"). The liquidity requirements relating to the LCR (which requires credit institutions to maintain certain liquid assets for a 30-day period against the background of a stress scenario) have been gradually implemented since October 2015. Since January 1, 2018 onwards the minimum LCR ratio of 100 per cent. has to be met. The NSFR (which requires credit institutions to refinance their long term assets under regular as well as under stressed market conditions with respective long term stable funding) which is calculated as the ratio of available funding resources across all maturities to the funding required, imposes further obligations on the Issuer. Further, changes to the leverage ratio have been introduced, so that – starting from June 2021 and following further guidance from the European Commission and the European Banking Authority ("EBA") – banks such as the Issuer will have to comply with a leverage ratio of at least 3 per cent. In the meantime, the Issuer continues to be obliged to report and publish its leverage ratio.

These own funds requirements and liquidity requirements may require Sparkasse KölnBonn to raise own funds instruments, increase other forms of capital or reduce its RWA to a greater extent which in turn may result in an adverse effect on Sparkasse KölnBonn's long term profitability. As a consequence, this may potentially have an adverse effect on an investor's economic or legal position under the Notes. Any such change may also have a material adverse effect on the Issuer's operating results and financial position and/or on the market value or liquidity regarding the Notes.

Rights of Noteholders may be adversely affected by Resolution Measures (including the Bail-in Tool and the Power to Write-Down and Convert Capital Instruments), the single resolution mechanism and measures to implement the BRRD

Sparkasse KölnBonn is at the date of this Prospectus not a "significant institution" for the purposes of Single Supervisory Mechanism (the "SSM") and the Single Resolution Mechanism (the "SRM") and, therefore, is not subject to direct supervision by the European Central Bank (the "ECB") and, as a result, not the single resolution board (the "Board"), but rather the German national resolution authority is the competent resolution authority with respect to Sparkasse KölnBonn. However, it cannot be excluded that this changes in the future, either because Sparkasse KölnBonn may become subject to direct supervision by the ECB under the SSM or if the Board assumes direct responsibility regarding the resolution framework over Sparkasse KölnBonn for other reasons.

As a result of the BRRD and the SRM Regulation, among other things, (i) credit institutions and resolution authorities are obliged to draw up recovery and resolution plans on how to deal with situations of financial stress, (ii) competent authorities are entitled to take early intervention measures, (iii) a set of resolution tools and measures have been set up that resolution authorities can apply to preserve critical functions without the need to bail out a credit institution (or its creditors), and (iv) the single resolution fund (the "Fund") has been set-up to finance and facilitate the effective and efficient resolution of credit institutions.

In relation to early intervention measures, the competent authority may, subject to certain conditions, take various actions and measures e.g. initiate changes to legal and/or operational structures, requiring credit institutions to draw up detailed recovery plans setting out how stress scenarios or cases of systemic instability could be addressed or request reduction of a credit institution's risk profile, measures enabling recapitalisation measures or improving the liquidity situation or otherwise requiring improvement actions regarding the resilience of the core business lines and critical functions (the "Early Intervention Measures").

The BRRD and respective SAG provisions and related changes to the legal framework may result in risks for Noteholders. In particular, a Noteholder is subject to the risk from the so-called bail-in tool pursuant to which claims for payment of principal, interest or other amounts under the Notes may be subject to a permanent reduction, including to zero, some other variation of the terms and conditions of the Notes in other aspects (e.g. variation of the maturity of a debt instrument) or a conversion into one or more instruments that constitute common equity tier 1 capital instruments ("Common Equity Tier 1 capital instruments") (such as capital stock) by intervention of the competent resolution authorities (the "Bail-in Tool"). Any write down or conversion by virtue of a Bail-in Tool may result in the investor in the Notes losing all or part of its invested capital or having its securities converted

into highly diluted equity which might have a value close to zero.

The SAG and the SRM Regulation furthermore provide that the competent resolution authorities have the power to write-down Common Equity Tier 1 capital instruments, additional tier 1 capital instruments and tier 2 capital instruments (the "**Relevant Capital Instruments**" and thereby also including the subordinated Notes) or to convert Relevant Capital Instruments into shares or other instruments of ownership of an institution (including any Common Equity Tier 1 capital instruments) potentially after the legal form of the Issuer has been changed pursuant to another resolution measure – either independently of resolution action as part of the Bail-in Tool or in combination with any other resolution measure (the "**Power to Write-Down and Convert Capital Instruments**"). Such power will, in particular, be given if either (i) the conditions for resolution as set out in §§ 62 et seqq. SAG have been met, (ii) the appropriate authority determines that unless that power is exercised in relation to the Relevant Capital Instruments, the institution or group will no longer be viable (the so-called "**point of non-viability**" or "**PONV**") or (iii) the institution requires public financial support. Where the institution is failing or likely to fail, such write-down or conversion of Relevant Capital Instruments may be mandatory.

In addition to the Bail-in Tool and the Power to Write-Down and Convert Capital Instruments, the competent resolution authorities are able to apply any other resolution measure, including, but not limited to, sale of the relevant entity or its shares, the formation of a bridge institution and the separation of valuable assets from the impaired assets of a failing credit institution, any transfer of rights and obligations (such as the Issuer's obligations under the Notes) to another entity, the amendment of the terms and conditions of the Notes (including their cancellation) or even the change of the legal form of the Issuer (these aforementioned measures, tools and exercise of powers collectively are hereinafter referred to as "**Resolution Measures**").

Noteholders are bound by any Resolution Measure and would have no claim or any other right against Sparkasse KölnBonn arising out of any Resolution Measure against Sparkasse KölnBonn and Sparkasse KölnBonn would be relieved from making payments under the Notes accordingly. This would occur if Sparkasse KölnBonn becomes, or is deemed by the competent authority to have become, failing or likely to fail (in particular if its continued existence is at risk (*Bestandsgefährdung*)) and certain other conditions are met (as set forth in the SRM Regulation, the SAG and other applicable rules and regulations).

Hierarchy of creditor claims and no creditor worse-off (NCWO) principle

The resolution regime envisages ensuring that holders of Common Equity Tier 1 capital instruments (such as common stock) bear losses first and that creditors bear losses after such holders of Common Equity Tier 1 capital instruments generally in accordance with the order of creditors applicable in regular insolvency proceedings for credit institutions. Generally, no creditor should incur a greater loss than it would have incurred if the institution had been wound up under regular insolvency proceedings (so called no creditor worse-off ("**NCWO**") principle), provided that the NCWO principle will not prejudice the ability of the competent resolution authority to use any resolution tool, but only lead to a compensation claim that may be raised by the affected person. Accordingly, the resolution authorities will generally exercise their power under the Bail-in Tool in a particular sequence so that (i) Common Equity Tier 1 capital instruments being written down first in proportion to the relevant losses, (ii) thereafter, the principal amount of additional tier 1 capital instruments being written down on a permanent basis or converted into participations in the capital stock or other Common Equity Tier 1 instruments of the Issuer, (iii) thereafter, the principal amount of tier 2 capital instruments (such as the subordinated Notes) and of other subordinated liabilities in accordance with the hierarchy of claims of Sparkasse KölnBonn's creditors in normal insolvency proceedings being written down on a permanent basis or converted into participations in the capital stock or other Common Equity Tier 1 instruments of the Issuer - potentially after the legal form of the Issuer has been changed - and (iv) thereafter, certain eligible liabilities (potentially including some liabilities under and in connection with Notes other than subordinated Notes) in accordance with the hierarchy of claims of Sparkasse KölnBonn's creditors in normal insolvency proceedings being written down on a permanent basis or converted into participations in the capital stock or other Common Equity Tier 1 instruments of the Issuer. The Notes

offered under this Prospectus include subordinated Notes that are issued with the aim of being recognised as supplementary tier 2 (*Ergänzungskapital*) which due to their ranking in the hierarchy of creditors are subject to an increased risk of becoming subject to risks arising from resolution under the resolution framework.

Whether, and to which extent the Notes (if not or not fully exempted by way of protective provisions) may be subject to Resolution Measures or Early Intervention Measures depends on a number of factors that are outside of Sparkasse KölnBonn's control, and it will be difficult to predict when, if at all, such measures will occur. The exercise of any Resolution Measure would in particular not constitute any right of a creditor to accelerate the Notes. In case the Issuer is subject to any Resolution Measure exercised by a competent resolution authority, Noteholders face the risk that they may lose all or part of their investment, including the principal amount plus any accrued interest, or that the obligations under the Notes are subject to any change in the terms and conditions of the Notes (which change will be to the detriment of the Noteholder), or that the Notes would be transferred to another entity (which may lead to a detrimental credit exposure) or are subject to any other measure if Resolution Measures occur.

Noteholders are exposed to a risk of subordination. The insolvency related hierarchy of claims entails a different treatment for certain claims of depositors, resulting in the possibility that Noteholders of certain types of Notes incur losses or are otherwise affected (e.g. by application of the Bail-in Tool and/or the Power to Write-Down and Convert Capital Instruments) before creditors of other senior liabilities need to absorb losses or are otherwise affected. Certain unsecured and unsubordinated debt instruments of the Issuer ("**Unsubordinated Non-Preferred Obligations**") rank below the Issuer's other senior liabilities ("**Unsubordinated Preferred Obligations**") in insolvency or in the event of the imposition of Resolution Measures, such as the Bail-in-Tool, affecting the Issuer. Unsubordinated Non-Preferred Obligations continue to rank above Sparkasse KölnBonn's contractually subordinated instruments.

According to Section 46f KWG, obligations have to fulfil certain requirements to be classified as Unsubordinated Non-Preferred Obligations, namely (i) a contractual minimum term of one year and (ii) the explicit reference in the terms and conditions that such obligations have a lower ranking in insolvency. In case the respective terms and conditions do not contain such reference, the obligations qualify as Unsubordinated Preferred Obligations. Investors should note that a correspondingly larger loss share will be allocated to Unsubordinated Non-Preferred Obligations in insolvency proceedings or the event of the imposition of the Bail-in Tool, and an investment in such Notes thus carries a higher risk.

The Issuer may be exposed to specific risks arising from the EU Banking Union, in particular in the context of SREP

Within the European Banking Union, the ECB is responsible for the prudential supervision of certain significant credit institutions. The basic provisions determining criteria for determining whether a bank is considered as a "significant institution" and therefore falls under the ECB's direct supervision relate to a bank's balance sheet size (total value of assets exceeding EUR 30 billion), economic importance, cross-border activities and need for direct public financial assistance whereby a related framework regulation lays down more detailed rules with regard to the actual functioning of the SSM. Sparkasse KölnBonn is designated as a "less significant institution" in the context of the SSM at the date of this Prospectus. Generally under the SSM, without prejudice to the ECB's power to exercise direct supervision in specific cases where this is necessary for the consistent application of high supervisory standards, the NCAs are responsible for the direct supervision of less significant institutions (such as Sparkasse KölnBonn). Further, in the context of its role as indirect supervisory authority over the less significant institutions, the ECB is entitled to review how NCAs apply SSM supervisory standards, processes and procedures that have been set by the ECB, such as the Supervisory Review and Evaluation Process ("**SREP**"), with regard to the less significant institutions. The oversight of processes includes assessing whether standards are applied in a harmonised way with a view to ensuring that comparable situations lead to comparable outcomes across the SSM. The ECB is also empowered to recommend changes to areas where further harmonisation is needed and, where

appropriate, develop standards with regard to supervisory practices.

It cannot be excluded that the Issuer's status may change over time to then fall into the category of "significant institutions" (in particular given its current balance sheet totals in light of the fact that exceeding an amount of total value of assets EUR 30 billion may constitute being qualified as a "significant institution" in the future) and thereby becoming subject to direct supervision by the ECB under the SSM or that the SSM has other (indirect) negative effects on the Issuer. As a result, for example, procedures within the SSM and other regulatory initiatives could change interpretation of regulatory requirements also with respect to less significant banks and lead to additional regulatory requirements, increased cost of compliance and reporting for the Issuer, e.g. if BaFin or another competent supervisory authority over the Issuer applies new regulatory requirements or interprets existing regulatory requirements more stringent in light of the SSM. Also, such developments may require re-adjustment of a credit institution's business plan or have other material adverse effects on its business, results of operations or financial condition.

As part of the SREP the competent supervisory authority BaFin is empowered to, *inter alia*, analyse the business model, internal control arrangements, risk governance as well as capital and liquidity adequacy of individual groups of credit institutions and to require those to comply with own funds and liquidity adequacy requirements which may exceed regular regulatory requirements or take early correction measures to address potential problems. The key result of the application of the SREP is a common scoring which may result in individual additional capital and liquidity requirements for the credit institutions. In 2017, BaFin notified the institutions examined of their capital requirement, whereby the resulting average SREP overall capital requirement amounted to 12.2 per cent. On January 31, 2020, Sparkasse KölnBonn has received an updated individual SREP notice by BaFin. BaFin determined a capital add-on of 0.25% for Sparkasse KölnBonn. Sparkasse KölnBonn may be subject to stress tests and related measures initiated and conducted by BaFin and the German Central Bank, the EBA, the ECB and/or any other competent authority. In 2021, EBA will carry out an EU-wide stress test, the concrete timing of which still needs to be determined. The aim of such stress test is to assess the resilience of banks across the EU to a common set of adverse economic developments in order to identify potential risks and inform supervisory decisions such as the SREP.

Additionally and as part of the SRM, the Fund has been established. Credit institutions such as Sparkasse KölnBonn are required to provide contributions to the Fund, including annual ex-ante contributions and extraordinary ex-post contributions, in particular if any of the banks under the SRM becomes subject to resolution measures. Such contributions might constitute a substantial financial burden for Sparkasse KölnBonn. Further, the SRM Regulation and a related intergovernmental agreement between participating EU Member States provide that during a transitional period, contributions are allocated to different national compartments of the Fund relating to each participating EU Member State, those compartments will be subject to a progressive merger whereby those compartments will ultimately cease to exist at the end of the eight year transitional period and the Board is able to dispose of the national compartments that are progressively merged. The Fund is being built up during the period from 2016 to 2024 and is supposed to reach at least 1 per cent of covered deposits of all credit institutions and some investment firms established in the 19 EU Member States participating in the SRM. While the Fund was expected to amount to EUR 55 billion by 2024, more current estimations predict that the Fund is expected to be about EUR 60 billion by the end of 2023. This development has to be seen in connection with ongoing discussions with regard to a backstop to be introduced to increase the financial stability of the Fund. Such backstop would be a credit line which the Fund is meant to receive in case its own means are insufficient.

In addition, Directive 2014/49/EU on deposit guarantee schemes was published in 2014. This revised directive provides, *inter alia*, for faster repayments. In general, financial means dedicated to the compensation of the depositors in times of stress have to comply with 0.8 per cent of the amount of the covered deposits by July 3, 2024, whereby the calculation of the contributions has to be made in due consideration of the risk profiles of the respective business models and those with a higher risk profile should provide higher contributions.

The institutional protection scheme of the Savings Banks Finance Group (*Sparkassen-Finanzgruppe*)

meets all the requirements of a statutory deposit protection system in accordance with the German law on deposit guarantees (*Einlagensicherungsgesetz*, "**EinSiG**"). Sparkasse KölnBonn is required to pay an annual contribution to this scheme in accordance with the contribution calculation. Depending on the development of deposits or the utilisation of the deposit protection system, this may also result in increased contribution payments in the future.

In January 2020, the ECB and BaFin informed the German Savings Banks Association (*Deutscher Sparkassen- und Giroverband*, "**DSGV**") of certain supervisory expectations regarding further enhancements of DSGV's institutional protection scheme based on an audit of the institutional protection scheme. DSGV is currently in dialogue with the ECB and BaFin on this matter. It is expected that the Savings Banks Finance Group (*Sparkassen-Finanzgruppe*) will, in agreement with the ECB and BaFin, reach an understanding on any necessary adjustments to the institutional protection scheme. Subject to the final outcome, the adjustments to DSGV's institutional protection scheme may have material adverse effects on the Issuer's business, results of operations or financial condition, particularly due to increased contributions.

Further, in 2015, the European Commission has presented a proposal to create a uniform European deposit insurance scheme ("**EDIS**"), which is still subject to intense political discussions. Significant progress in the related negotiations has not yet been achieved. In particular, the creation of a European deposit protection fund at the EU level which shall gradually replace national deposit protection funds is being discussed. The aforementioned developments may require further changes to the institution protection scheme of the Savings Banks Finance Group (*Sparkassen-Finanzgruppe*). Subject to the final agreement and implementation, this may result in obligations of the Issuer to come up for further contributions. In addition, this may impair Sparkasse KölnBonn's access to liquidity and/or have other material adverse effects on the Issuer's business activities, operating results or financial position.

Rights of Noteholders may be adversely affected by measures pursuant to the Kreditinstitute-Reorganisationsgesetz

As a German credit institution, the Issuer is subject to the Kreditinstitute-Reorganisationsgesetz ("**KredReorgG**") which, *inter alia*, introduced special restructuring schemes for German credit institutions since January 1, 2011, namely (i) the restructuring procedure (*Sanierungsverfahren*) pursuant to § 2 et seqq. of the KredReorgG and (ii) the reorganisation procedure (*Reorganisationsverfahren*) pursuant to § 7 et seqq. of the KredReorgG. These aforementioned procedures under the KredReorgG are additional measures next to potential measures, steps and proceedings under and in connection with the SAG and the SRM. The difference is that the procedures under the KredReorgG are only commenced upon respective initiation by the affected credit institution, respective approval by the BaFin and the competent higher regional court (*Oberlandesgericht*), whereas measures, steps and proceedings under and in connection with the SAG and the SRM do not require consent or approval by the affected credit institution.

Whereas a restructuring procedure (*Sanierungsverfahren*) pursuant to the KredReorgG may generally not directly interfere with rights of creditors, the reorganisation plan (*Reorganisationsplan*) established under a reorganisation procedure (*Reorganisationsverfahren*) pursuant to the KredReorgG may provide for measures that affect the rights of the credit institution's creditors including a reduction of existing claims or a suspension of payments.

In the context of and without prejudice to the abovementioned aspects, banking and financial services laws, regulations and policies currently governing Sparkasse KölnBonn may change at any time in ways which could have an adverse effect on its business and may materially affect conduct of business, the products or services they may offer and the value of Sparkasse KölnBonn's assets or have a negative impact on the profitability of the Issuer, certain of its business areas or products and increase costs and therefor have respective side-effects on its creditors. To the extent that Sparkasse KölnBonn provides banking or financial services in other jurisdictions, Sparkasse KölnBonn may need to comply with further foreign law regulatory provisions and securities laws.

The withdrawal of a country from the Euro and/or the European Union could have unpredictable consequences on the financial system and the greater economy

The withdrawal of the United Kingdom from the European Union (Brexit) is likely to result in market disruptions, affecting the Issuer, in particular in case of a disorderly Brexit. Negotiations of the future terms of the United Kingdom's relationship with the European Union are still ongoing and the effect of Brexit will depend on the final outcome of such negotiations. Brexit is likely to result in legal uncertainty and lead to divergent national laws and regulations.

Risks relating to the Notes

The risk factors regarding the Notes are presented in the following four categories depending on their nature with the two most material risk factors presented first in each category:

1. Risks related to the regulatory classification of the Notes
2. Risks related to the nature of the Notes
3. Risks related to specific Terms and Conditions of the Notes
4. Other related risks

1. Risks related to the regulatory classification of the Notes

Subordinated Notes

Subordinated Notes constitute unsecured and subordinated obligations of the Issuer. In the event of the liquidation, insolvency, composition or other proceedings for the avoidance of insolvency of the Issuer, such obligations will be subordinated to the claims of all unsubordinated creditors of the Issuer so that in any such event no amounts will be payable under such obligations until the claims of all unsubordinated creditors of the Issuer will have been satisfied in full.

Investors in the subordinated Notes should note that such are issued with the aim of being recognised as supplementary tier 2 (*Ergänzungskapital*) pursuant to the CRR and should note that the resolution authority is entitled to apply resolution tools and powers such as the Bail-in Tool and Power to Write-Down and Convert Capital Instruments. Investors in subordinated Notes should take into consideration that they may be significantly affected by such aforementioned procedures and measures (which may lead to the loss of the entire investment). Further, there is no guarantee that subordinated Notes will be qualified or continue to be qualified as supplementary tier 2 capital (*Ergänzungskapital*). Given that the bail-in tool and the write-down and conversion powers shall be applied in accordance with the hierarchy of claims (*Haftungskaskade*) (as set out above), an investor in subordinated Notes assumes an increased risk of loss. In particular, any payments on claims resulting from the subordinated Notes would only be made, if and to the extent any senior ranking claims have been fully satisfied. Further, potential investors may – already in a crisis of the Issuer and not only in an insolvency scenario – lose all of their investment, including the principal amount plus any accrued interest. In such circumstances, respective investors would not be entitled to demand early redemption of the subordinated Notes, or to exercise any other rights in this respect.

Unsubordinated non-preferred Notes

Unsubordinated, non-preferred Notes constitute non-preferred debt instruments within the meaning of section 46f (6) sentence 1 of the German Banking Act (*Kreditwesengesetz*) and have a lower ranking in insolvency of the Issuer as determined by section 46f (5) of the German Banking Act (*Kreditwesengesetz*). In the event of liquidation, insolvency or bankruptcy of the Issuer, obligations under unsubordinated non-preferred Notes may be satisfied only after claims of creditors of

unsubordinated Notes which are not non-preferred and claims of certain other creditors which take priority pursuant to mandatory law have been satisfied, so that in any such event no amounts shall be payable in respect of such obligations until the claims of all such creditors will have been satisfied in full. Investors in unsubordinated non-preferred Notes should be aware that, due to the ranking of the unsubordinated non-preferred Notes, their claims are exposed to an – compared to other unsubordinated Notes – increased extent to the risks in connection with resolution measures and as a result (and therefore already in a crisis of the Issuer and not only in an insolvency scenario) may lose all of their investment, including the principal amount plus any accrued interest.

Eligible Notes

To be eligible for the purposes of MREL, the relevant Notes (in particular the unsubordinated non-preferred Notes) have to fulfil certain conditions and are subject to certain restrictions, such as, among others, the requirement of the prior permission of the competent regulatory authority before an early redemption right can be exercised by the Issuer. In particular considering that the regulatory framework and therefore, amongst others, the MREL framework continues to be subject to further changes (e.g. in the context of the implementation of the amendments to the BRRD in the course of 2020), the requirements in this regard will continue to change.

No Noteholder may set off his claims arising under the Notes against any claims of the Issuer. No security of whatever kind is, or will at any time be, provided by the Issuer or any other person securing rights of the Noteholder under such Notes. No subsequent agreement may limit the subordination or amend the maturity date in respect of the Notes to any earlier date or shorten any applicable notice period (*Kündigungsfrist*).

2. Risks related to the nature of the Notes

Market Price Risk

The development of market prices of the Notes depends on various factors, such as changes of market interest rate levels, the policies of central banks, overall economic developments, inflation rates or the lack of or excess demand for the relevant type of Note. The Noteholders are therefore exposed to the risk of an unfavorable development of market prices of their Notes which materialize if the Noteholders sell the Notes prior to the final maturity of such Notes. If Noteholders decide to hold the Notes until final maturity, the Notes will be redeemed at the amount set out in the relevant Final Terms.

Noteholders of Fixed Rate Notes are particularly exposed to the risk that the price of such Notes falls as a result of changes in the market interest rate levels. While the nominal interest rate of a Fixed Rate Note as specified in the applicable Final Terms is fixed during the life of such Notes, the current interest rate on the capital market typically changes on a daily basis. As the market interest rate changes, the price of Fixed Rate Notes also changes, but in the opposite direction. If the market interest rate increases, the price of Fixed Rate Notes typically falls, until the yield of such Notes is approximately equal to the market interest rate of comparable issues. If the market interest rate falls, the price of Fixed Rate Notes typically increases, until the yield of such Notes is approximately equal to the market interest rate of comparable issues. If Noteholders of Fixed Rate Notes hold such Notes until maturity, changes in the market interest rate are without relevance to such Noteholders as the Notes will be redeemed at a specified redemption amount, usually the principal amount of such Notes.

Noteholders of Floating Rate Notes are particularly exposed to the risk of fluctuating interest rate levels and uncertain interest income. Fluctuating interest rate levels make it impossible to determine the profitability of Floating Rate Notes in advance. Neither the current nor the historical value of the relevant floating rate should be taken as an indication of the future development of such floating rate during the term of any Notes.

Noteholders of Zero Coupon Notes are exposed to the risk that the price of the Notes falls as a result of changes in the market interest rate. Prices of Zero Coupon Notes are more volatile than prices of Fixed Rate Notes and are likely to respond to a greater degree to market interest rate changes than interest bearing Notes with a similar maturity.

Liquidity Risk

Application may be made to the Dusseldorf Stock Exchange and the Luxembourg Stock Exchange for Notes issued under this Programme to be admitted to trading on the Regulated Market of the Dusseldorf Stock Exchange and the Regulated Market of the Luxembourg Stock Exchange, as the case may be, and to be listed on the official list of the Luxembourg Stock Exchange. In addition, the Programme provides that Notes may be listed on other or further stock exchanges or may not be listed at all. Regardless of whether the Notes are listed or not, there can be no assurance regarding the future development of a market for the Notes or the ability of Noteholders to sell their Notes or the price at which Noteholders may be able to sell their Notes. If such a market were to develop, the Notes could trade at prices that may be higher or lower than the initial offering price depending on many factors, including prevailing interest rates, the Issuer's operating results, the market for similar securities and other factors, including general economic conditions, performance and prospects, as well as recommendations of securities analysts. The liquidity of, and the trading market for, the Notes may also be adversely affected by declines in the market for debt securities generally. Such a decline may affect any liquidity and trading of the Notes independent of the Issuer's financial performance and prospects. If Notes are not listed on any exchange, pricing information for such Notes may, however, be more difficult to obtain which may affect the liquidity of the Notes adversely. In an illiquid market, an investor might not be able to sell his Notes at any time at fair market prices.

No Deposit Protection

The Notes are neither protected by the Deposit Protection Fund of the Association of German Banks (*Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.*) nor by the German Deposit Guarantee Act (*Einlagensicherungsgesetz*).

3. Risks related to specific Terms and Conditions of the Notes

Risk of Early Redemption

The applicable Final Terms will indicate if the Issuer has the right to call the Notes prior to maturity (optional call right). If the applicable Final Terms indicate that payments on Notes are linked to a benchmark, the Issuer may also have the right to redeem the Notes in case of a discontinuation of such benchmark or in case of Subordinated Notes if the regulatory treatment for the Notes changes. In addition, the Issuer will always have the right to redeem the Notes if the Issuer is required to pay additional amounts (gross-up payments) on the Notes for reasons of taxation as set out in the Terms and Conditions. If the Issuer redeems the Notes prior to maturity, the Noteholders of such Notes are exposed to the risk that due to such early redemption his investment will have a lower than expected yield. The Issuer can be expected to exercise his call right if the yield on comparable Notes in the capital market has fallen which means that the investor may only be able to reinvest the redemption proceeds in comparable Notes with a lower yield. On the other hand, the Issuer can be expected not to exercise his call right if the yield on comparable Notes in the capital market has increased. In this event an investor will not be able to reinvest the redemption proceeds in comparable Notes with a higher yield. It should be noted, however, that the Issuer may exercise any call right irrespective of market interest rates on a call date.

Risks associated with the reform of LIBOR, EURIBOR and other interest rate 'benchmarks'

The London Interbank Offered Rate (LIBOR), the Euro Interbank Offered Rate (EURIBOR) and other interest rates or other types of rates and indices which are deemed "benchmarks" (each a "**Benchmark**" and together, the "**Benchmarks**") have become the subject of regulatory scrutiny and

recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such Benchmarks to perform differently than in the past, or to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to such a Benchmark.

International proposals for reform of Benchmarks include the European Council's regulation (EU) 2016/1011 of June 8, 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 (the "**Benchmark Regulation**").

The Benchmark Regulation could have a material impact on Notes linked to a Benchmark, including in any of the following circumstances:

- a rate or index which is a Benchmark may only be used if its administrator obtains authorisation or is registered and in case of an administrator which is based in a non-EU jurisdiction, if the administrator's legal benchmark system is considered equivalent (Art. 30 Benchmark Regulation), the administrator is recognised (Art. 32 Benchmark Regulation) or the Benchmark is endorsed (Art. 33 Benchmark Regulation) (subject to applicable transitional provisions). If this is not the case, Notes linked to such Benchmarks could be impacted; and
- the methodology or other terms of the Benchmark could be changed in order to comply with the terms of the Benchmark Regulation, and such changes could have the effect of reducing or increasing the rate or level or affecting the volatility of the published rate or level, and could impact the Notes, including Calculation Agent determination of the rate.

In addition to the aforementioned Benchmark Regulation, there are numerous other proposals, initiatives and investigations which may impact Benchmarks.

Following the implementation of any such potential reforms, the manner of administration of Benchmarks may change, with the result that they may perform differently than in the past, or Benchmarks could be eliminated entirely, or there could be other consequences which cannot be predicted.

If a Benchmark were to be discontinued or otherwise unavailable, the rate of interest for Floating Rate Notes which are linked to such Benchmark will be determined for the relevant period by the fall-back provisions applicable to such Notes, which in the end could lead, *inter alia*, to a previously available rate of the Benchmark being applied until maturity of the Floating Rate Notes, effectively turning the floating rate of interest into a fixed rate of interest, or, to determination of the applicable interest rate on the basis of another benchmark determined by the Issuer in its discretion or to an early termination of the relevant Notes at the option of the Issuer.

Any changes to a Benchmark as a result of the Benchmark Regulation or other initiatives, could have a material adverse effect on the costs of refinancing a Benchmark or the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with any such regulations or requirements. Although it is uncertain whether or to what extent any of the above-mentioned changes and/or any further changes in the administration or method of determining a Benchmark could have an effect on the value of any Notes linked to the relevant Benchmark, investors should be aware that any changes to a relevant Benchmark may have a material adverse effect on the value or liquidity of, and the amounts payable on, Floating Rate Notes whose rate of interest is linked to such Benchmark.

Currency Risk

Noteholders of Notes denominated in a foreign currency (i.e. a currency other than euro) are particularly exposed to the risk of changes in currency exchange rates which may affect the yield of such Notes. Changes in currency exchange rates result from various factors, such as macro-economic factors, speculative transactions and interventions by central banks and governments.

A change in the value of any foreign currency against the euro, for example, will result in a corresponding change in the euro value of Notes denominated in a currency other than euro and a corresponding change in the euro value of interest and principal payments made in a currency other than euro in accordance with the terms of such Notes. If the underlying exchange rate falls and the value of the euro rises correspondingly, the price of the Notes and the value of interest and principal payments made thereunder expressed in euro falls.

In addition, government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable currency exchange rate. As a result, investors may receive less interest or principal than expected.

*Risks related to the German Act on Debt Securities of 2009 (*Schuldverschreibungsgesetz*)*

Since the Terms and Conditions of Notes issued under the Programme provide for meetings of Noteholders of a series of Notes or the taking of votes without a meeting, the Terms and Conditions of such Notes may be amended (as proposed or agreed by the Issuer) by majority resolution of the Noteholders of such Notes and any such majority resolution will be binding on all Noteholders. Any Noteholder is therefore subject to the risk that its rights against the Issuer under the Terms and Conditions of the relevant series of Notes are amended, reduced or even cancelled by a majority resolution of the Noteholders. Any such majority resolution will even be binding on Noteholders who have declared their claims arising from the Notes due and payable based on the occurrence of an event of default but who have not received payment from the Issuer prior to the amendment taking effect. According to the German Act on Debt Securities of 2009 (*Schuldverschreibungsgesetz* – "SchVG"), the relevant majority for Noteholders' resolutions is generally based on votes cast, rather than on the aggregate principal amount of the relevant Notes outstanding. Therefore, any such resolution may effectively be passed with the consent of less than a majority of the aggregate principal amount of the relevant Notes outstanding.

Under the SchVG, an initial common representative (*gemeinsamer Vertreter*) of the Noteholders (the "**Noteholders' Representative**") may be appointed in the terms and conditions of an issue.

However, no initial Noteholders' Representative might be appointed in the Terms and Conditions at the issue date. Any appointment of a Noteholders' Representative at a later stage will, therefore, require a majority resolution of the Noteholders. If the appointment of a Noteholders' Representative is delayed, this will make it more difficult for Noteholders to take collective action to enforce their rights under the Notes.

If a Noteholders' Representative will be appointed by majority decision of the Noteholders it is possible that Noteholders may be deprived of their individual right to pursue and enforce its rights under the Terms and Conditions against the Issuer, if such right was passed to the Noteholders' Representative by majority vote who is then exclusively responsible to claim and enforce the rights of all the Noteholders.

No events of default

The Terms and Conditions of the Notes generally do not provide for events of default allowing acceleration of the Notes if certain events occur. Accordingly, if not specified otherwise in the relevant Final Terms, if the Issuer fails to meet any obligations under the Notes, Noteholders will have no right of acceleration of the Notes. Instead, the remedies of the Noteholders will solely be the institution of proceedings to enforce payments (whereby the Issuer will not, by virtue of the opening of such proceedings, be obliged to pay any sum sooner than the same would otherwise have been payable by it).

4. Other related Risks

Risks related to Credit Ratings

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to the structure, market, additional risk factors discussed herein and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal by the rating agency at any time. No assurance can be given that a credit rating will remain constant for any given period of time or that a credit rating will not be reduced or withdrawn entirely by the credit rating agency if, in its judgment, circumstances so warrant. Rating agencies may also change their methodologies for rating securities in the future. Any suspension, reduction or withdrawal of the credit rating assigned to the relevant Notes by one or more of the credit rating could adversely affect the value and trading of such Notes.

**Part C of the Prospectus
Important Notice**

IMPORTANT NOTICE

No person is authorised to give any information or to make any representation regarding the Issuer or the Notes not contained in or not consistent with this Prospectus or any other document entered into in relation to the Programme or any information supplied by the Issuer or such other information as is in the public domain and, if given or made, such information or representation must not be relied upon as having been authorised by or on behalf of the Issuer or by any of the Dealers.

This Prospectus should be read and construed in conjunction with any supplement thereto and with any other documents incorporated by reference and, in relation to any series of Notes, should be read and construed together with the relevant Final Terms.

The Prospectus was approved by the Bundesanstalt für Finanzdienstleistungsaufsicht which is the competent authority for the purposes of the approval of the Prospectus under the Prospectus Regulation (the "**Competent Authority**"). The Competent Authority only approves this Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of the economic or financial opportunity of the operation or the quality and solvency of the Issuer or of the quality of the Notes that are the subject of this Prospectus.

Neither the delivery of this Prospectus or any Final Terms nor the offering, sale or delivery of any Note shall, in any circumstances, create any implication (i) that the information contained in this Prospectus is true subsequent to the date thereof or the date upon which this Prospectus has been most recently supplemented or (ii) that there has been no adverse change in the financial situation of the Issuer since the date thereof or, as the case may be, the date upon which this Prospectus has been most recently supplemented. Should however a material change occur in relation to the information contained in, or incorporated into, this Prospectus or an adverse change occur in the financial situation of the Issuer since the date hereof or, as the case may be, the date upon which this Prospectus has been most recently supplemented, the Issuer will promptly procure that this Prospectus will be supplemented pursuant to Article 23 of the Prospectus Regulation.

The Dealers named in this Prospectus do not make any representation or warranty, express or implied, as to the accuracy or completeness of the information in this Prospectus. Each person receiving this Prospectus acknowledges that such person has not relied on the Dealers or any person affiliated with the Dealers in connection with its investigation of the accuracy of such information or its investment decision. Each person contemplating making an investment in the Notes must make its own determination of the suitability of any such investment, with particular reference to its own investment objectives and experience, and any other factors which may be relevant to it in connection with such investment.

Dealers transacting with the Issuer

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for the Issuer and its affiliates in the ordinary course of business. Certain of the Dealers and their affiliates may have positions, deal or make markets in the Notes issued under the Programme, related derivatives and reference obligations, including (but not limited to) entering into hedging strategies on behalf of the Issuer and its affiliates, investor clients, or as principal in order to manage their exposure, their general market risk, or other trading activities.

In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative

securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or the Issuer's affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Each potential investor in Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes and the information contained or incorporated by reference into this Prospectus or any supplement hereto;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation and the investment(s) it is considering, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the relevant Notes, including where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the relevant Notes and be familiar with the behaviour of financial markets;
- (v) be aware that it may be required to pay taxes or other documentary charges or duties in accordance with the laws and practices of the country where the Notes are transferred or other jurisdictions;
- (vi) ask for its own tax adviser's advice on its individual taxation with respect to the acquisition, sale and redemption of the Notes; and
- (vii) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

This Prospectus does not constitute an offer of or an invitation by or on behalf of the Issuer or the Dealers to subscribe or purchase any of the Notes. Persons into whose possession the Prospectus or any Final Terms comes are required by the Issuer and the Dealers to inform themselves about and to observe any such restrictions. For a description of certain restrictions on offers, sales and deliveries of Notes and on the distribution of the Prospectus or any Final Terms and other offering material relating to the Notes, see "**Subscription and Sale**". In particular, Notes have not been and will not be registered under the United States Securities Act of 1933 (as amended) and may include Notes which are subject to U.S. tax law requirements. Subject to certain exceptions, Notes may not be offered, sold or delivered within the United States or to U.S. persons.

IMPORTANT - EEA AND UK RETAIL INVESTORS – If the Final Terms in respect of any Notes include a legend entitled "Prohibition of Sales to EEA and UK Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA") or in the

United Kingdom ("UK"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "MiFID II") or (ii) a customer within the meaning of Directive 2016/97/EU (as amended, the "Insurance Distribution Directive"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently no key information document required by Regulation (EU) No 1286/2014 (the "PRIIPS Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the EEA or in the UK has been prepared and therefore offering or selling of the Notes or otherwise making them available to any retail investor in the EEA or in the UK may be unlawful under the PRIIPS Regulation.

MiFID II product governance / target market

The Final Terms in respect of any Notes may include a legend entitled "MiFID II Product Governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate and may outline further details in connection therewith. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID II product governance rules under EU Delegated Directive 2017/593 (the "MiFID II Product Governance Rules"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID II Product Governance Rules.

Benchmarks register

Amounts payable under the Notes may be calculated by reference to EURIBOR®, which is provided by European Money Markets Institute (EMMI) or LIBOR®, which is provided by ICE Benchmark Administration Limited (IBA). As at the date of this Prospectus, each of EMMI and IBA appears on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority ("ESMA") pursuant to Article 36 of the Benchmark Regulation (Regulation (EU) 2016/1011) (the "Benchmarks Register"). Neither the Prospectus nor any Final Terms may be used for the purpose of an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such an offer or solicitation.

In connection with the issue of any tranche of Notes (the "Tranche"), the Dealer or Dealers (if any) determined as stabilising manager(s) (the "Stabilising Manager(s)") (or persons acting on behalf of any Stabilising Manager(s)) in the applicable Final Terms may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment shall be conducted by the relevant Stabilising Manager(s) (or person acting on behalf of any Stabilising Manager(s)) in accordance with all applicable laws and rules.

Subject to any applicable legal or regulatory restrictions and requirements of relevant central banks, Notes may be issued in Australian dollars, Canadian dollars, Danish Kronors, Euro, Japanese Yen, New Zealand dollars, Pounds Sterling, Swiss Francs, U.S. dollars or any other currency agreed by the Issuer and the Dealers.

In this Prospectus all references to "**EUR**", "**€**", "**Euro**" and "**euro**" are to the single currency which was introduced as of January 1, 1999 with the start of the third stage of the European Economic and Monetary Union by which date the euro became the legal currency in (initially) eleven member states of the European Union.

The amendment and restatement of the Programme was duly authorised by the Issuer by resolution of the Board of Managing Directors of the Issuer dated June 9, 2020.

Interests, including any conflicts of interests, of natural and legal persons involved in an issue of Notes

Any interests, including any conflicts of interest will be set out in the relevant Final Terms.

Listings and Trading

Application may be made to list Notes on the Düsseldorf Stock Exchange or on any further relevant stock exchange and to trade such Notes on the regulated market (*regulierter Markt*) of the Düsseldorf Stock Exchange or of any further relevant stock exchange, as the case may be.

The Issuer may also issue Notes which are admitted to trading on the unregulated market of the Düsseldorf Stock Exchange or on an unregulated market of any further stock exchange and the Issuer may issue Notes which are unlisted.

Issue Date

The issue date of the Notes will be specified in the applicable Final Terms.

Security Identification Number

Any issue of Notes will carry a security identification number as further specified in the relevant Final Terms. In addition the Final Terms will specify the date on which the Notes will be admitted to trading and an estimate of the costs and expenses related thereto.

Clearing Systems

The Notes have been accepted for clearance through Euroclear Bank SA/NV ("Euroclear"), Clearstream Banking AG, Frankfurt am Main ("CBF") and Clearstream Banking, société anonyme, Luxembourg ("CBL"). If the Notes are to clear through any other relevant Clearing System, the appropriate information will be specified in the applicable Final Terms.

Exchange of Notes

In the case of an issue of Notes which are subject to the provisions of United States Treasury Regulation § 1.163-5(c)(2)(i)(C) or the analogous provisions of any substantially similar successor regulation ("TEFRA C") including any successor regulations or rules in substantially the same form of TEFRA C for purposes of Section 4701 of the US Internal Revenue Code, as specified in the applicable Final Terms, such Notes will be represented by a permanent global note.

In the case of an issue of Notes which are subject to the provisions of United States Treasury Regulation § 1.163-5(c)(2)(i)(D) or the analogous provisions of any substantially similar successor regulation ("TEFRA D") including any successor regulations or rules in substantially the same form of TEFRA D for purposes of Section 4701 of the US Internal Revenue Code, such Notes will always be represented initially by a temporary global note which will be exchanged for Notes represented by one or more permanent global note(s) not earlier than 40 days after completion of distribution of the Notes comprising the relevant tranche upon certification of non-U.S. beneficial ownership in the form available from time to time at the specified office of the Fiscal Agent.

The details of the exchange of Notes will be specified in the relevant Final Terms.

Permanent global notes will not be exchanged for Notes in definitive form.

Except in the case of Notes having an interest payment date prior to the relevant date for exchange, no interest will be paid on any temporary global note. In the case of Notes issued subject to TEFRA D having an interest payment date prior to the relevant date for exchange, payments of interest thereon will only be made upon certification of non-U.S. beneficial ownership as described above.

Payments

Payments on global notes held through a clearing system will be made to the relevant clearing system or to its order for credit to the relevant accountholders of such clearing system. The Issuer will be discharged by payment to, or to the order of, the relevant clearing system and each Noteholder represented by a global note held through a clearing system must look solely to the relevant clearing system for his share of any payments so made by the Issuer.

No payments in respect of the Notes will be made at any office or agency in the United States, to an account maintained by the payee with a bank in the United States, or by cheque mailed to an address in the United States. Notwithstanding the foregoing, in the case of payments in U.S. dollars, payments due in respect of the Notes may be made in U.S. dollars at an office in the United States if the full amount of such payment at each office of the Fiscal Agent and Paying Agents outside the United States appointed by the Issuer is illegal or effectively precluded because of the imposition of exchange controls or other similar restrictions on the full payment or receipt of such amount in U.S. dollars, in which cases the Issuer will appoint a further Paying Agent with a specified office in New York City.

Clearance and Settlement

The Programme has been designed so that Notes may be held through CBF, CBL and/or Euroclear and/or any other or further clearing system so specified in the relevant Final Terms. Electronic securities and payment transfer, processing, depositary and custodial links have been established among these systems and others, either directly or indirectly through custodians and depositaries, which enable Notes to be issued, held and transferred among the clearing systems across these links. Special procedures have been established among these clearing systems and the Fiscal Agent to facilitate clearance and settlement of certain Notes traded across borders in the secondary market.

Customary clearance and settlement procedures for the relevant clearing system applicable to bearer eurobonds in the specified currency will be followed.

Transfers of interests in any global note held by a clearing system will be made in accordance with the normal operating procedures of the relevant clearing system. Each clearing system also has its own separate operating procedures and arrangements with participants or accountholders which govern the relationship between them and the relevant clearing system and to which the Issuer is not and will not be a party. None of the Issuer, the Fiscal Agent or any other Paying Agent will have any responsibility for the performance by any clearing system or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations.

Stabilisation

Stabilisation in relation to the Notes may be carried out by the Issuer or any stabilising manager appointed by the Issuer in order to support the market price of the relevant Notes. There is no assurance that stabilisation will be undertaken and it may be ended at any time. Stabilisation measures, if undertaken, will be carried out for a limited time period, starting on the date of adequate public

disclosure of the terms of the offer of the relevant Notes and end, whatever is earlier, either not later than 30 calendar days after the date on which the Issuer of the Notes received the proceeds of the issue, or no later than 60 calendar days after the date of allotment of the relevant Notes.

Reasons for the Offer and Use of Proceeds

The net proceeds of each issue of Notes will be applied by the Issuer to meet part of its general financing requirements or, in relation to a specific issue of Notes, to such specific purpose as set out in the relevant Final Terms.

B. Issue Procedures

General

The Issuer and the relevant Dealer(s) will agree on the terms and conditions applicable to each particular Tranche of Notes (the "**Conditions**"). The Conditions will be constituted by the Terms and Conditions of the Notes set forth below (the "**Terms and Conditions**") as completed or supplemented by the provisions of the Final Terms (the "**Final Terms**").

Long-Form Conditions

Notes issued under the Programme will always be documented on the basis of long-form Conditions (the "Long-form Conditions"). Long-form Conditions means that the provisions of the applicable Final Terms and the Terms and Conditions, taken together, shall constitute the Conditions. Such Conditions will be constituted as follows:

- the blanks in the provisions of the Terms and Conditions which are applicable to the Notes will be deemed to be completed by the information contained in the Final Terms as if such information were inserted in the blanks of such provisions;
- the Terms and Conditions will be completed by the text of any provisions of the Final Terms completing, in whole or in part, the provisions of the Terms and Conditions;
- alternative or optional provisions of the Terms and Conditions as to which the corresponding provisions of the Final Terms are not completed or are deleted will be deemed to be deleted from the Conditions; and
- all instructions and explanatory notes set out in square brackets in the Terms and Conditions and any footnotes and explanatory text in the Final Terms will be deemed to be deleted from the Conditions. Square brackets around paragraphs are deemed to be deleted and the number of the paragraph is deemed to be adapted if a previous paragraph was not applicable.

Each global note representing the Notes of the relevant Series will have the Final Terms and the Terms and Conditions attached.

Language

The Issuer and the relevant Dealer(s) will determine whether Part I of the Final Terms is drafted in the English language only or in a bilingual format (i.e. German and English) and in the latter case which language shall be the binding one (i.e. German or English).

Rating of the Notes

Notes issued under the Programme may be rated or unrated. Any rating assigned to the Notes will be set out in the relevant Final Terms.

Description of the main features of the Notes

This section of the Prospectus "Description of the main features of the Notes" is an abstract description of the varieties for structuring Notes which may be issued under the EUR 4,000,000,000 Debt Issuance Programme of Sparkasse KölnBonn as Issuer.

It covers the following topics:

- Interest on the Notes
- Redemption of the Notes at maturity
- Early redemption of the Notes
- Denomination of the Notes
- Currency of the Notes

- Status and ranking of the Notes
- Form of the Notes
- ECB-Eligibility
- Issue of further Notes
- Substitution of the Issuer
- Representation of Noteholders
- Governing law, place of performance, jurisdiction and limitation period.

The Notes are securitised liabilities of the Issuer. The issue of the Notes enables the Issuer to raise debt capital on the capital markets. The liabilities are represented by the issue of one or more global note(s) in bearer form. Definitive notes are not being issued by the Issuer.

The relevant terms and conditions of the Notes, which will govern the relationship between the Issuer and the Noteholders, are attached to the relevant global note(s) and form an integral part of such global note(s). The form of terms and conditions is set out in Part D.II. of this Prospectus.

The following description is an abstract presentation of the following possible structures of the Notes to be issued under the terms of this Prospectus and does not refer to a specific issue of Notes which will be issued under the terms of this Prospectus.

Potential investors should note that information relating to a specific issue of Notes **that is not yet known at the date of this Prospectus**, including but not limited to the issue price, the date of the issue, the level of the interest rate (if the Notes bear interest), the type of interest payable (if the Notes bear interest), the maturity date, the appliance of any Issuer's or Noteholder's rights of termination and other details significantly affecting the economic assessment of the Notes is not contained in this section of this Prospectus but in the relevant Final Terms applying to the Notes. **Consequently, the following description does not contain all information relating to a specific issue of Notes. Any investment decision by an investor should therefore be made only on the basis of full information on the Issuer and on the Notes to be offered which is set out in this Prospectus, the relevant Final Terms for such Notes when read together with this Prospectus and any supplement thereto.**

Interest on the Notes

The EUR 4,000,000,000 Debt Issuance Programme of Sparkasse KölnBonn as Issuer provides for the issue of Notes with a fixed rate of interest (*fixed rate notes*), Notes with a floating rate of interest (*floating rate notes*), Notes with a fixed rate and a floating rate of interest (*fixed to floating rate notes*) and Notes with no periodic payment of interest (*zero coupon notes*).

Notes with a fixed rate of interest (Fixed Rate Notes)

In the case of Notes with a fixed rate of interest (the "**Fixed Rate Notes**"), the rate of interest on the basis of which periodic interest payments are calculated will be specified before the issue date of the Notes by the Issuer. The interest rate specified is based in principle on the credit rating of the Issuer applying directly prior to the issue date of the Notes, the maturity of the Notes and the interest rates for raising debt capital currently applying on the capital market.

The Issuer may determine that it will specify a rate of interest for the Notes which will remain unchanged over the entire term or that the interest rate will increase (*step-up*, the "**Step-up Notes**") or

decrease (*step-down*, the "**Step-down Notes**") as the term of the Notes progresses on dates specified at the issue date of the Notes. The level of the interest payments made over the term of the Notes will change accordingly.

Notes with a floating rate of interest (Floating Rate Notes and CMS Floating Rate Notes)

In the case of Notes with a floating rate of interest (the "**Floating Rate Notes**"), the interest rate on the basis of which the amount of interest payable to the Noteholders is calculated is not specified at the issue date of the Notes. Instead, the rate at which interest accrues changes over time and only the relevant variable on which the rate of interest on the Notes is based (the reference rate) is specified. The reference rate may be either the EURIBOR® or the LIBOR®.

Euro Interbank Offered Rate (EURIBOR®) is a daily interest rate at which Eurozone banks offer to lend unsecured funds to other banks for specific terms.

London Interbank Offered Rate (LIBOR®) is an interest rate at which banks of the London market offer to lend unsecured funds to other banks in the London market to be determined on a daily basis at 11 am London time for specific terms.

Interest of floating rate notes may also be based on a successor reference rate to EURIBOR® or LIBOR®, as the case may be, in which case a reference to the reference rate herein shall be construed as a reference to such successor reference rate.

Reference rates are subject to fluctuations and regularly adjust in response to the relevant parameters on the capital market. The rate of interest on Floating Rate Notes may therefore change (i.e. rise or fall) many times over the term of the Notes. If the relevant reference rate rises over the term of the Notes, then the amount of interest payable on the Notes will also increase. If the relevant reference rate falls over the term of the Notes, then the amount of interest payable on the Notes will also decrease.

Floating Rate Notes are linked to a reference rate and may be structured in accordance with the following variants: (i) the relevant reference rate represents the rate of interest applicable to the Notes on a one to one basis or (ii) a fixed rate of interest (margin) is added (premium) to the relevant reference rate depending on the credit rating of the Issuer, the maturity of the Notes and the interest rates currently applying on the capital market for raising debt capital, i.e. the relevant reference rate and the premium together produce the rate of interest applicable to the Notes or (iii) a fixed rate of interest (margin) is deducted (discount) from the relevant reference rate depending on the maturity of the Notes and the interest rates currently applying on the capital market for raising debt capital, i.e. the relevant reference rate after deducting the discount produces the rate of interest applicable to the Notes or (iv) the rate of interest based on the relevant reference rate is limited to an upper maximum interest rate determined in advance (cap), i.e. even if the relevant reference rate were to be higher than the maximum interest rate, only the maximum interest rate would be applicable to the Notes for the relevant interest period or (v) the rate of interest based on the relevant reference rate is limited to a lower minimum interest rate determined in advance (floor), i.e. even if the relevant reference rate were to be lower than the minimum interest rate, the minimum interest rate would be applicable to the Notes for the relevant interest period or (vi) the rate of interest based on the relevant reference rate is limited to an upper maximum interest rate and a lower minimum interest rate determined in advance (collared floater), i.e. the rate of interest is never higher than the maximum interest rate and never lower than the minimum interest rate and within that interest rate corridor is dependent on the changes in the relevant reference rate or (vii) the reference interest rate multiplied by a factor produces the rate of interest applicable to the Notes.

Floating Rate Notes may also be structured as constant maturity swap linked Notes ("**CMS Floating Rate Notes**") in which case the interest rate at which interest accrues changes over time and only the relevant variable on which the interest rate applicable to the Notes is based (the basic rate of interest)

is specified. The basic rate of interest is also a capital market rate of interest, similarly to the reference interest rate described above (e.g. 6 months EURIBOR[®]), with maturities of between one to 20 years (e.g. constant maturity swap rates (CMS)). Such Notes may also be structured in accordance with the same variants i) to vii) above.

The relevant Final Terms will indicate where information about the past and the future performance of the relevant reference rate or the relevant basic rate and its volatility can be obtained.

Notes with a fixed and a floating rate of interest (Fixed to Floating Rate Notes)

In the case of Notes with a fixed and a floating rate of interest (Fixed to Floating Rate Notes), the interest rate is specified at the issue date for a particular period and for particular interest payment dates (Fixed Rate Notes), while the accrual of interest for the remaining period is linked to a relevant reference rate of interest and may change from one interest payment date to the next (Floating Rate Notes). Fixed to Floating Rate Notes are therefore a combination of a Fixed Rate Note and a Floating Rate Note.

Notes with no periodic payment of interest (Zero Coupon Notes)

In the case of Notes with no periodic payment of interest (the "**Zero Coupon Notes**"), the interest accrued takes the exclusive form of the redemption of the Zero Coupon Notes at maturity at a higher amount than the issue price. The Noteholder of Zero Coupon Notes therefore receives "interest" as a one-time payment at maturity in the form of a redemption amount that is higher than the issue price. No periodic interest payments are made during the term of the Zero Coupon Notes.

Due dates for interest payments and calculation of the amount of interest (except for Zero Coupon Notes)

Interest payments may be made quarterly, semi-annually or annually or at other periodic dates in arrears. The amount of interest payable in respect of the Notes is calculated by applying the relevant interest rate for the interest period concerned and the day count fraction to the par value of the Notes.

Yield

In order to calculate the yield on the Notes, all of the payment flows relating to the Notes must be included (issue price, all interest payments and any transaction costs). If the Notes pay a floating rate of interest for part or all of their term, it is not possible to calculate the yield at the issue date of the Notes. In this event, the yield can only be determined when the amounts of all the payments (interest payments and redemption amount) are known.

Redemption of the Notes at maturity

Notes issued under the terms of this Prospectus have a maturity which is determined at the issue date. Prior to the issue date of the Notes, the Issuer determines the maturity date on which it is obliged to redeem the Notes and the amount at which it is obliged to redeem them. The redemption amount of the Notes shall not be less than their principal amount.

Early redemption of the Notes

The Notes may include provisions under which they may be terminated by the Issuer (Issuer's right of termination) or by the Noteholders (Noteholders' right of termination without the occurrence of a termination event or due to the occurrence of a termination event). In the event of termination by the Issuer or by the Noteholders, the Issuer is obliged to redeem the Notes early and at an amount specified at the issue date of the Notes. In such cases the Notes are redeemed prior to their stated maturity date and all rights and obligations arising under the Notes expire. The early redemption

amount of the Notes shall not be less than their principal amount.

Issuer's right of termination without the occurrence of a termination event

The Issuer's rights of termination (subject to notice) are rights of termination on the basis of which the Issuer may terminate the Notes without the occurrence of a termination event. The consequence of such termination is that the Issuer is obliged to redeem the Notes prior to maturity on the date and at the amount specified on the issue date. At the issue date of the Notes, the Issuer specifies dates on which it may terminate the Notes and on which it is obliged to redeem the Notes once they have been terminated. In order for such a right of termination to be exercised effectively, the Issuer is obliged to publish the notice of termination on the announcement date in accordance with the provisions for announcements. The exercise of a right of termination, the date and amount at which the Notes are to be redeemed early by the Issuer are communicated to the Noteholders by means of an announcement.

Issuer's right of termination due to the occurrence of a termination event

The Issuer's rights of termination due to the occurrence of a termination event are rights of termination on the basis of which the Issuer may terminate the Notes on the occurrence of an event specified in advance. The consequence of such termination is that the Issuer is obliged to redeem the Notes on a date and at an amount specified at the issue date of the Notes. At the issue date of the Notes, the Issuer specifies the events on the occurrence of which it is entitled in principle to terminate the Notes. In order for such a right of termination to be exercised effectively, the Issuer is obliged to publish the notice of termination and must observe requirements for the form of the termination. The exercise of a right of termination, the date and amount at which the Notes are to be redeemed early by the Issuer and the event following which the Issuer is entitled from its point of view to declare an extraordinary termination are communicated to the Noteholders by means of an announcement.

An example of an event giving the right to termination is a change in tax law occurring after the issue date as a result of which the Issuer is required to withhold or deduct taxes and therefore to pay additional amounts to the Noteholders due to particular provisions or in case of subordinated Notes a change in the regulatory treatment of the Notes. Further, the Issuer has a right to termination for reasons of a so-called discontinuation event, i.e. if an applicable reference rate ceases to be provided or is otherwise being discontinued and a successor reference rate cannot be determined as set out in the relevant final terms.

Noteholders' right of termination without the occurrence of a termination event

The Noteholders' rights of termination (subject to notice) are rights of termination on the basis of which the Noteholders may terminate the Notes which such Noteholder is holding without the occurrence of a termination event. The consequence of such termination by Noteholders is that the Issuer is obliged to redeem such Notes prior to maturity on the date and at the amount specified on the issue date at the issue date of the Notes. At the issue date of the Notes, the Issuer specifies dates on which the Noteholder may terminate its Notes and on which the Issuer is obliged to redeem such Notes once the Noteholders have exercised their right of termination.

It should be noted, in particular with regard to the unsubordinated, non-preferred Notes, that such Notes do not contain any termination rights of the Noteholders without the occurrence of a termination event.

Noteholders' right of termination due to the occurrence of a termination event

The Noteholders' rights of termination due to the occurrence of a termination event are rights of termination on the basis of which the Noteholders may terminate the Notes which such Noteholder is holding on the occurrence of an event specified in advance. The consequence of such termination by the Noteholders is that the Issuer is obliged to redeem such Notes on a date and at an amount so

specified. In order for such right of termination to be exercised effectively, the Noteholders are obliged to give notice of such termination to the Issuer in text form (*Textform*) (§ 126b of the German Civil Code (BGB)) upon the occurrence of a termination event.

An example of an event giving the right to termination is the failure of the Issuer to make a payment of capital or interest within 7 days after the relevant due date.

However, generally (unless, in exceptional circumstances, specified otherwise in the relevant Final Terms) the Noteholders do not have any rights of termination due to the occurrence of a termination event.

Repurchase

Notwithstanding the provisions governing the redemption or early redemption of the Notes, the Issuer may be entitled to purchase all or some of the Notes at any time and at any price in the market or otherwise and to hold, cancel or resell them at its discretion.

Minimum Denomination of the Notes

Notes issued under the Programme must have a denomination or par value of at least Euro 100,000 (or its equivalent in other currencies).

Currency of the Notes

Notes may be issued in any currency subject to compliance with all applicable legal or regulatory requirements.

Status and ranking of the Notes

The Notes issued under the terms of this Prospectus represent securitised liabilities of the Issuer. These liabilities may be unsecured and unsubordinated, unsecured and subordinated or secured in accordance with the provisions of the German Pfandbrief Act (*Pfandbriefgesetz* (the "**Pfandbrief Act**")).

Notes which are issued as unsubordinated and unsecured liabilities rank *pari passu* (ranking equally) with each other and with all other unsubordinated, unsecured current and future liabilities of the Issuer, unless otherwise provided by mandatory provisions of law or the contractual conditions of the Notes refer explicitly to a lower ranking.

Pursuant to section 46f (5)-(7) of the German Banking Act (*Kreditwesengesetz*), certain unsecured and unsubordinated debt instruments of the Issuer rank below the Issuer's other senior liabilities. Such Notes which are issued as unsubordinated, non-preferred liabilities rank *pari passu* (ranking equally) with each other and with all other unsecured and unsubordinated liabilities of the Issuer, with the exemption that as unsubordinated, non-preferred obligations of the Issuer claims under the Notes rank subordinated to other unsubordinated and unsecured obligations of the Issuer if and to the extent such unsubordinated and unsecured obligations enjoy preferred treatment by law in insolvency proceedings of the Issuer. In each case, such unsubordinated, non-preferred Notes rank senior to any subordinated debt of the Issuer.

Subordinated Notes rank *pari passu* with each other. Subordinated Notes issued under the Programme are intended to serve the Issuer as eligible regulatory capital in the form of Tier 2 capital (*Ergänzungskapital*) pursuant to Articles 63 ff. of Regulation (EU) No 575/2013 of the European Parliament and of the Council on prudential requirements for credit institutions and investment firms (as amended, supplemented or replaced from time to time, the "**CRR**"). In the event of the Issuer's dissolution, liquidation, insolvency, composition or other proceedings for the avoidance of insolvency such liabilities will be fully subordinated to the claims of all unsubordinated other creditors of the

Issuer.

Form of Notes

The Notes are represented by the issue of one or more global note(s) in bearer form. Definitive notes will not be issued by the Issuer. The relevant terms and conditions of the Notes, which will govern the relationship between the Issuer and the Noteholders, are attached to the relevant global note(s) together with the relevant Final Terms and both documents form an integral part of such global note(s).

The Notes will not be issued in the form of registered notes (*Namensschuldverschreibungen*) but as notes in bearer form only within the meaning of § 793 of the German Civil Code (BGB) (*Inhaberschuldverschreibungen*).

ECB-Eligibility

Assets that are pledged to the Eurosystem as security for its central bank credit operations are so-called "collateral". To be accepted, these assets must fulfill certain criteria, i.e. be "ecb-eligible". In order to fulfill one of the various criteria, Notes must be issued (i) in new global note format (NGN) and deposited with one of the international central securities depositaries (ICSDs) as common safekeeper; or (ii) in classical global note format (CGN) and deposited directly with Clearstream Banking AG. However, the issue in NGN or CGN format does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of further Eurosystem eligibility criteria.

Issue of further Notes

The Issuer reserves the right to issue further Notes with the same terms without the consent of the Noteholders in such a way that they will be consolidated with the Notes issued previously, form a uniform series with them and increase their total par value.

Substitution of the Issuer

In certain circumstances in case of unsubordinated Notes and in case of unsubordinated non-preferred Notes and provided the Issuer is not in default with any payment of principal and/or interest in respect of such Notes, a subsidiary of the Issuer – may replace Sparkasse KölnBonn – in its capacity as Issuer at any time and without the consent of the Noteholders with respect to all rights and obligations arising under or in connection with such unsubordinated Notes.

Representation of Noteholders

For a description of the rules regarding Noteholder's representation and regarding the resolution of Noteholders reference is being made to the section below "Applicability of the German Bond Act (*Schuldverschreibungsgesetz*)".

Governing law, place of performance, jurisdiction and limitation period

The Notes, as to form and content, and all rights and obligations of the Noteholders and the Issuer, shall be governed by German law. Place of performance shall be Frankfurt am Main.

The relevant prescription period for the limitation of claims arising from the Notes is ten years.

Applicability of the German Bond Act (Schuldverschreibungsgesetz)

Pursuant to § 5 para. 1 of the German Bond Act ("Gesetz über Schuldverschreibungen aus Gesamtemissionen vom 31. Juli 2009 (Schuldverschreibungsgesetz)" (BGBl. I S. 2512); "SchVG" or "**German Bond Act**"), which came into effect on August 5, 2009, the Terms and Conditions provide that § 5 through § 22 SchVG are applicable to each Series of Notes (other than Pfandbriefe).

Description of Rules Regarding the Resolution of Noteholders

Noteholders may agree to amendments or decide on other matters relating to the Notes by way of resolution to be passed by taking votes without a meeting. Any such resolution duly adopted by resolution of the Noteholders shall be binding on each Noteholder, irrespective of whether such Noteholder took part in the vote and whether such Noteholder voted in favour or against such resolution.

The following is a brief summary of some of the statutory rules regarding the taking of votes without meetings, the passing and publication of resolutions as well as their implementation and challenge before the German courts.

Specific Rules regarding Votes without Meeting

The voting shall be conducted by the person presiding over the taking of votes. Such person shall be (i) a notary public appointed by the Issuer, (ii) if the vote was solicited by the joint representative (*gemeinsamer Gläubigervertreter*) of the Noteholders (the "**Noteholders' Representative**"), the Noteholders' Representative, or (iii) a person appointed by the competent court.

The notice soliciting the Noteholders' votes shall set out the period within which votes may be cast. During such voting period, the Noteholders may cast their votes to the person presiding over the taking of votes. Such notice shall also set out in detail the conditions to be met for the votes to be valid.

The person presiding over the taking of votes shall ascertain each Noteholder's entitlement to cast a vote based on evidence provided by such Noteholder and shall prepare a list of the Noteholders entitled to vote. If it is established that no quorum exists, the person presiding over the taking of votes may convene a meeting of the Noteholders. Within one year following the end of the voting period, each Noteholder participating in the vote may request a copy of the minutes of such vote and any annexes thereto from the Issuer.

Each Noteholder participating in the vote may object in writing to the result of the vote within two weeks following the publication of the resolutions passed. The objection shall be decided upon by the person presiding over the taking of votes. If he remedies the objection, the person presiding over the taking of votes shall promptly publish the result. If the person presiding over the taking of votes does not remedy the objection, he shall promptly inform the objecting Noteholder in writing.

The Issuer shall bear the costs of the vote and, if the court has convened a meeting, also the costs of such proceedings.

Rules regarding Noteholders' Meetings applicable to Votes without Meeting

In addition, the statutory rules applicable to the convening and conduct of Noteholders' meetings will apply analogous, subject to certain exemptions (*mutatis mutandis*), to any vote without a meeting. The following summarises some of such rules.

Meetings of Noteholders may be convened by the Issuer or the Noteholders' Representative. Meetings of Noteholders must be convened if one or more Noteholders holding five per cent or more of the

outstanding Notes so require for specified reasons permitted by statute.

Meetings may be convened not less than 14 days prior to the date of the meeting. Attendance and exercise of voting rights at the meeting may be made subject to prior registration of Noteholders. The convening notice will provide what proof will be required for attendance and voting at the meeting. The convening notice shall be made publicly available together with the agenda of the meeting setting out the proposals for resolution.

Each Noteholder may be represented by proxy. The Noteholders' meeting will have a quorum if the persons attending represent at least 50 per cent. of the outstanding Notes by value. If the quorum is not reached, a second meeting may be convened at which no quorum will be required, provided that where a resolution may only be adopted by a qualified majority, a quorum requires the presence of at least 25 per cent. of the aggregate principal amount of outstanding Notes.

All resolutions adopted must be properly published. Resolutions which amend or supplement the Terms and Conditions of the Notes have to be implemented by supplementing or amending the relevant Global Note(s).

In insolvency proceedings instituted in Germany against the Issuer, the Noteholders' Representative is obliged and exclusively entitled to assert the Noteholders' rights under the Notes. Any resolutions passed by the Noteholders are subject to the provisions of the Insolvency Code (*Insolvenzordnung*).

If a resolution constitutes a breach of the statute or the Terms and Conditions of the Notes, Noteholders may bring an action to set aside such resolution. Such action must be filed with the competent court within one month following the publication of the resolution.

[Im Fall von Schuldverschreibungen, die anfänglich durch eine vorläufige Globalurkunde verbrieft sind (anwendbar bei TEFRA D):

- (3) *Vorläufige Globalurkunde – Austausch.*

- (a) Die Schuldverschreibungen sind anfänglich durch eine vorläufige Globalurkunde (die "vorläufige Globalurkunde") ohne Zinsscheine verbrieft. Die vorläufige Globalurkunde wird gegen Schuldverschreibungen im Nennbetrag, die durch eine Dauerglobalurkunde (die "Dauerglobalurkunde") ohne Zinsscheine verbrieft sind, ausgetauscht. Die vorläufige Globalurkunde und die Dauerglobalurkunde tragen jeweils die eigenhändigen Unterschriften zweier ordnungsgemäß bevollmächtigter Vertreter der Emittentin und sind jeweils von der Emissionsstelle oder in deren Namen mit einer Kontrollunterschrift versehen. Einzelurkunden und Zinsscheine werden nicht ausgegeben.
- (b) Die vorläufige Globalurkunde wird an einem Tag gegen die Dauerglobalurkunde ausgetauscht, der nicht weniger als 40 Tage nach dem Tag der Ausgabe der vorläufigen Globalurkunde liegen darf. durch die vorläufige Globalurkunde verbrieften Schuldverschreibungen keine U.S.-Personen sind (ausgenommen bestimmte Finanzinstitute oder bestimmte Personen, die Schuldverschreibungen über solche Finanzinstitute halten). Zinszahlungen auf durch eine vorläufige Globalurkunde verbrieften Schuldverschreibungen erfolgen erst nach Vorlage solcher Bescheinigungen. Eine gesonderte Bescheinigung ist hinsichtlich einer jeden solchen Zinszahlung erforderlich. Jede Bescheinigung, die am oder nach dem 40. Tag nach dem Tag der Ausgabe der durch die vorläufige Globalurkunde verbrieften Schuldverschreibungen eingeht, wird als ein Ersuchen behandelt werden, diese vorläufige Globalurkunde gemäß Absatz (b) dieses § 1(3) auszutauschen. Wertpapiere, die im Austausch für die vorläufige Globalurkunde geliefert werden, sind nur außerhalb der Vereinigten Staaten zu liefern.]

- (4) *Clearing System.* Jede vorläufige Globalurkunde (falls diese nicht ausgetauscht wird) und/oder jede Dauerglobalurkunde wird so lange von einem oder im Namen eines Clearing Systems verwahrt, bis sämtliche Verbindlichkeiten der Emittentin aus den Schuldverschreibungen erfüllt sind. "**Clearing System**" bedeutet [bei mehr als einem **Clearing System**: jeweils] Folgendes: [Clearstream Banking AG, Frankfurt am Main, Mergenthalerallee 61, 65760 Eschborn, Deutschland] [Clearstream Banking, société anonyme, Luxembourg, 42 Avenue JF Kennedy, 1855 Luxembourg, Luxemburg ("CBL")] [Euroclear Bank SA/NV, 1 Boulevard du Roi Albert II, 1210 Brüssel, Belgien ("Euroclear")] [CBL und Euroclear jeweils ein "**ICSD**" und zusammen die "**ICSDs**") oder jeder Funktionsnachfolger.

[Im Fall von Schuldverschreibungen, die im Namen der ICSDs verwahrt werden:

Die Register der ICSDs (unter denen man die Register versteht, die jeder ICSD für seine Kunden über den Betrag ihres Anteils an den Schuldverschreibungen führt) sind schlüssiger Nachweis über den Nennbetrag der durch die Vorläufige Globalurkunde und die Dauerglobalurkunde verbrieften Schuldverschreibungen, und ein zu diesen Zwecken von einem ICSD jeweils ausgestellte Bestätigung mit dem Nennbetrag der so verbrieften Schuldverschreibungen ist ein schlüssiger Nachweis über den Inhalt des Registers des jeweiligen ICSD zu diesem Zeitpunkt.

Bei Rückzahlung oder Zahlung einer Rate oder einer Zinszahlung bezüglich der durch die Vorläufige Globalurkunde und die Dauerglobalurkunde verbrieften Schuldverschreibungen bzw. bei Kauf und Entwertung der durch die Vorläufige Globalurkunde und die Dauerglobalurkunde verbrieften Schuldverschreibungen stellt die Emittentin sicher, dass die Einzelheiten über Rückzahlung und Zahlung bzw. Kauf und Löschung bezüglich der Vorläufigen Globalurkunde und der Dauerglobalurkunde anteilig (*pro rata*) in die Unterlagen der ICSDs eingetragen werden, und dass, nach dieser Eintragung, vom Nennbetrag der in die Register der ICSDs aufgenommenen und durch die Vorläufige Globalurkunde und die

Dauerglobalurkunde verbrieften Schuldverschreibungen der Gesamtnennbetrag der zurückgekauften bzw. gekauften und entwerteten Schuldverschreibungen bzw. der Gesamtbetrag der so gezahlten Raten abgezogen wird.

[**Falls die Vorläufige Globalurkunde eine NGN ist:** bei Austausch eines Anteils von ausschließlich durch eine vorläufige Globalurkunde verbriefte Schuldverschreibungen wird die Emittentin sicherstellen, dass die Einzelheiten dieses Austauschs anteilig (*pro rata*) in die Aufzeichnungen der ICSDs aufgenommen werden.]

§ 2 STATUS

[Im Fall von nicht nachrangigen (*preferred*) Schuldverschreibungen:

- (1) *Nicht nachrangige (*preferred*) Verbindlichkeiten.* Die Schuldverschreibungen begründen nicht besicherte und nicht nachrangige Verbindlichkeiten der Emittentin, die untereinander und mit allen anderen nicht besicherten und nicht nachrangigen gegenwärtigen und zukünftigen Verbindlichkeiten der Emittentin gleichrangig sind, soweit zwingende gesetzliche Bestimmungen nichts Anderes vorsehen oder in den vertraglichen Bedingungen der Schuldverschreibungen nicht ausdrücklich auf den niedrigeren Rang hingewiesen wird.]

[Im Fall von MREL-Fähigkeit:

- (2) *Keine Aufrechnung.* Die Aufrechnung mit und gegen Ansprüche aus den Schuldverschreibungen ist ausgeschlossen.
- (3) *Keine Sicherheiten.* Den Gläubigern wird für ihre Rechte aus den Schuldverschreibungen weder durch die Emittentin noch durch Dritte irgendeine Sicherheit oder Garantie gestellt; eine solche Sicherheit oder Garantie wird auch zu keinem späteren Zeitpunkt gestellt werden.
- (4) *Nachträgliche Änderungen des Ranges und der Laufzeit sowie von Kündigungsfristen.* Nachträglich können die Rangstellung der Schuldverschreibungen nicht geändert sowie die Laufzeit der Schuldverschreibungen und jede anwendbare Kündigungsfrist nicht verkürzt werden.]

[Im Fall von nicht nachrangigen, nicht-bevorrechtigten (*non-preferred*) Schuldverschreibungen:

- (1) *Nicht nachrangige, nicht-bevorrechtigte (*non-preferred*) Verbindlichkeiten.* Die Schuldverschreibungen begründen nicht besicherte und nicht nachrangige, nicht-bevorrechtigte (*non-preferred*) Verbindlichkeiten der Emittentin, die untereinander und mit allen anderen nicht besicherten und nicht nachrangigen Verbindlichkeiten der Emittentin gleichrangig sind, mit folgender Ausnahme:

Als nicht nachrangige, nicht-bevorrechtigte (*non-preferred*) Verbindlichkeiten der Emittentin sind Ansprüche aus den Schuldverschreibungen nachrangig gegenüber anderen nicht besicherten und nicht nachrangigen Verbindlichkeiten der Emittentin, sofern und insoweit solche nicht besicherten und nicht nachrangigen Verbindlichkeiten im Insolvenzverfahren der Emittentin oder im Falle der Anwendung von Abwicklungsmaßnahmen eine gesetzlich bevorrechtigte Behandlung genießen, jedoch vorrangig gegenüber allen nachrangigen Schuldverschreibungen.

Bei den Schuldverschreibungen handelt es sich um nicht-bevorrechtigte (*non-preferred*) Schuldtitel im Sinne von Paragraph 46f (6) Satz 1 Kreditwesengesetz, die im Insolvenzverfahren der Emittentin den durch Paragraph 46f (5) Kreditwesengesetz bestimmten niedrigeren Rang als andere nicht besicherte und nicht nachrangige Verbindlichkeiten der Emittentin haben.

- (2) *Keine Aufrechnung.* Die Aufrechnung mit und gegen Ansprüche aus den Schuldverschreibungen ist ausgeschlossen.
- (3) *Keine Sicherheiten.* Den Gläubigern wird für ihre Rechte aus den Schuldverschreibungen weder durch die Emittentin noch durch Dritte irgendeine Sicherheit oder Garantie gestellt; eine solche Sicherheit oder Garantie wird auch zu keinem späteren Zeitpunkt gestellt werden.
- (4) *Nachträgliche Änderungen des Ranges und der Laufzeit sowie von Kündigungsfristen.* Nachträglich können die Rangstellung der Schuldverschreibungen nicht geändert sowie die Laufzeit der Schuldverschreibungen und jede anwendbare Kündigungsfrist nicht verkürzt werden.]

[Im Fall von nachrangigen Schuldverschreibungen:

- (1) *Nachrangige Verbindlichkeiten.* Zweck der Schuldverschreibungen ist es, der Emittentin als berücksichtigungsfähige Eigenmittel in der Form des Ergänzungskapitals (Tier 2) gemäß Artikeln 63 ff. der Verordnung (EU) Nr. 575/2013 des Europäischen Parlaments und des Rates über die Aufsichtsanforderungen an Kreditinstitute und Wertpapierfirmen (in ihrer jeweils ergänzten oder ersetzen Fassung, "CRR") zu dienen. Die Schuldverschreibungen begründen nicht besicherte, nachrangige Verbindlichkeiten der Emittentin, die untereinander gleichrangig sind und mit allen anderen nicht besicherten und nachrangigen gegenwärtigen und zukünftigen Verbindlichkeiten der Emittentin gleichrangig sind, es sei denn, der Rang innerhalb des Nachrangs wird durch eine gesetzliche Regelung oder die Bedingungen anderer nachrangiger Verbindlichkeiten anders bestimmt.
- (2) *Auflösung oder Insolvenz der Emittentin bzw. Abwendung der Insolvenz.* Im Fall der Auflösung, der Liquidation oder der Insolvenz der Emittentin oder eines Vergleichs oder eines anderen der Abwendung der Insolvenz dienenden Verfahrens gehen die Verbindlichkeiten aus den Schuldverschreibungen den Ansprüchen dritter Gläubiger der Emittentin aus nicht nachrangigen Verbindlichkeiten (einschließlich, jedoch nicht ausschließlich, den Forderungen gegen die Emittentin aus deren berücksichtigungsfähigen Verbindlichkeiten gemäß Artikel 72b CRR) im Range vollständig nach, so dass Zahlungen auf die Schuldverschreibungen so lange nicht erfolgen, wie die Ansprüche dieser dritten Gläubiger der Emittentin aus nicht nachrangigen Verbindlichkeiten nicht vollständig befriedigt sind. Unter Beachtung dieser Nachrangregelung bleibt es der Emittentin unbenommen, ihre Verbindlichkeiten aus der Schuldverschreibung auch aus dem sonstigen freien Vermögen zu bedienen.
- (3) *Keine Aufrechnung.* Kein Gläubiger ist berechtigt, mit Ansprüchen aus den Schuldverschreibungen gegen Ansprüche der Emittentin aufzurechnen.
- (4) *Keine Sicherheiten.* Den Gläubigern wird für ihre Rechte aus den Schuldverschreibungen weder durch die Emittentin noch durch Dritte irgendeine Sicherheit gestellt; eine solche Sicherheit wird auch zu keinem späteren Zeitpunkt gestellt werden.
- (5) *Keine nachträgliche Beschränkung.* Nachträglich kann der Nachrang gemäß diesem § 2 nicht beschränkt sowie die Laufzeit der Schuldverschreibungen und jede anwendbare Kündigungsfrist nicht verkürzt werden. Werden die Schuldverschreibungen vor dem Fälligkeitstag unter anderen als den in diesem § 2 beschriebenen Umständen oder infolge einer vorzeitigen Kündigung nach Maßgabe von § 5(2) oder § 5(3) oder § 5(4) zurückgezahlt oder von der Emittentin zurückgeworben, so ist der zurückgezahlte oder gezahlte Betrag der Emittentin ohne Rücksicht auf entgegenstehende Vereinbarungen zurückzugewähren, sofern nicht die zuständige Behörde der vorzeitigen Rückzahlung oder dem Rückkauf zugestimmt hat. Eine Kündigung oder Rückzahlung der Schuldverschreibung nach Maßgabe von § 5 oder ein Rückkauf der Schuldverschreibungen vor Endfälligkeit ist in jedem Fall nur mit vorheriger Zustimmung der für die Emittentin zuständigen Aufsichtsbehörde zulässig. "**Zuständige Aufsichtsbehörde**" bezeichnet die Europäische Zentralbank, die Bundesanstalt für Finanzdienstleistungsaufsicht (BaFin) oder eine andere zuständige Behörde, die die Aufsichtsaufgaben übernommen hat.]

§ 3
ZINSEN

[(A) Im Fall von festverzinslichen Schuldverschreibungen (einschließlich Stufenzinsschuldverschreibungen):

- (1) *Zinssatz und Zinszahlungstage.* Die Schuldverschreibungen werden in Höhe ihres Gesamtnennbetrages verzinst, **[im Fall von Schuldverschreibungen, die keine Stufenzinsschuldverschreibungen sind]**: und zwar vom **[Verzinsungsbeginn]** (der "Verzinsungsbeginn") (einschließlich) bis **[zum Fälligkeitstag]** (wie in § 5(1) definiert) (ausschließlich) mit jährlich **[Zinssatz] %.** **[Im Fall von Stufenzinsschuldverschreibungen (nicht anwendbar bei nachrangigen Schuldverschreibungen):** und zwar in Bezug auf die unten angegebenen Perioden zu den unten angegebenen Zinssätzen: **[Perioden / dazugehörige Zinssätze.]** Die Zinsen sind nachträglich am **[Festzinstermin(e)]** eines jeden Jahres zahlbar (jeweils ein "Zinszahlungstag"). - (2) *Auflaufende Zinsen.* Der Zinslauf der Schuldverschreibungen endet an dem Tag, der dem Tag vorangeht, an dem sie zur Rückzahlung fällig werden. Falls die Emittentin die Schuldverschreibungen bei Fälligkeit nicht einlöst, endet die Verzinsung des ausstehenden Nennbetrages der Schuldverschreibungen nicht am Tag der Fälligkeit, sondern erst an dem Tag, der dem Tag der tatsächlichen Rückzahlung der Schuldverschreibungen vorangeht. Weitergehende Ansprüche der Gläubiger bleiben unberührt.²

Sollte die maßgebliche Bildschirmseite nicht zur Verfügung stehen, oder wird darauf kein Referenzsatz angezeigt (zu der genannten Zeit), wird die Berechnungsstelle von den [Londoner] [zutreffenden anderen Ort] Hauptniederlassungen jeder der Referenzbanken (wie nachstehend definiert) [in der Euro-Zone] deren jeweilige Angebotssätze (jeweils als Prozentsatz per annum ausgedrückt) für Einlagen in der festgelegten Währung für die betreffende Zinsperiode gegenüber führenden Banken im [Londoner] [zutreffenden anderen Ort] Interbanken-Markt [in der Euro-Zone] um ca. 11.00 Uhr ([Brüsseler] [Londoner] Ortszeit) am Zinsfestlegungstag anfordern. Falls zwei oder mehr Referenzbanken der Berechnungsstelle solche Angebotssätze nennen, ist der Zinssatz für die betreffende Zinsperiode das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein [falls der Referenzsatz EURIBOR⁴ ist: Tausendstel Prozent, wobei 0,0005] [falls der Referenzsatz LIBOR ist: Hunderttausendstel Prozent, wobei 0,000005] aufgerundet wird) dieser Angebotssätze [im Fall einer Marge: [zuzüglich] [abzüglich] der Marge], wobei alle Festlegungen durch die Berechnungsstelle erfolgen.

Falls an einem Zinsfestlegungstag nur eine oder keine der Referenzbanken der Berechnungsstelle solche im vorstehenden Absatz beschriebenen Angebotssätze nennt, ist der Zinssatz für die betreffende Zinsperiode der Satz per annum, den die Berechnungsstelle als das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein [falls der Referenzsatz EURIBOR ist: Tausendstel Prozent, wobei 0,0005] [falls der Referenzsatz LIBOR ist: Hunderttausendstel Prozent, wobei 0,000005] aufgerundet wird) der Angebotssätze ermittelt, die die Referenzbanken bzw. zwei oder mehrere von ihnen der Berechnungsstelle auf deren Anfrage als den jeweiligen Satz nennen, zu dem ihnen um ca. 11.00 Uhr ([Brüsseler] [Londoner] Ortszeit) an dem betreffenden Zinsfestlegungstag Einlagen in der festgelegten Währung für die betreffende Zinsperiode von führenden Banken im [Londoner] [zutreffenden anderen Ort] Interbanken-Markt [in der Euro-Zone]

Für den Fall, dass der Zinssatz nicht gemäß den vorstehenden Bestimmungen dieses Absatzes ermittelt werden kann, ist der Zinssatz der Angebotssatz oder das arithmetische Mittel der Angebotssätze auf der Bildschirmseite, wie vorstehend beschrieben, an dem letzten Tag vor dem Zinsfestlegungstag, an dem diese Angebotssätze angezeigt wurden [**im Fall einer Marge:** [zuzüglich] [abzüglich] der Marge (wobei jedoch, falls für die betreffende Zinsperiode eine andere Marge als für die unmittelbar vorhergehende Zinsperiode gilt, die Marge der betreffenden Zinsperiode an die Stelle der Marge für die vorhergehende Zinsperiode tritt)].

"**Referenzbanken**" bezeichnen [**falls in den Endgültigen Bedingungen keine anderen Referenzbanken bestimmt werden:** diejenigen von der Emittentin benannten Niederlassungen von vier derjenigen Banken, deren Angebotssätze zur Ermittlung des maßgeblichen Angebotssatzes zu dem Zeitpunkt benutzt wurden, als solch ein Angebot letztmals auf der maßgeblichen Bildschirmseite angezeigt wurde] [**falls in den Endgültigen Bedingungen andere Referenzbanken bestimmt werden**].

Wenn (i) die Emittentin oder die Berechnungsstelle den Referenzsatz nicht mehr verwenden darf, (ii) der Administrator des Referenzsatzes die Berechnung und Veröffentlichung des Referenzsatzes dauerhaft oder für eine unbestimmte Zeit einstellt, (iii) der Administrator des Referenzsatzes zahlungsunfähig wird oder ein Insolvenz-, Konkurs-, Restrukturierungs- oder ähnliches Verfahren (den Administrator betreffend) durch den Administrator oder durch die Aufsichts- oder Regulierungsbehörde eingeleitet wurde, oder (iv) der Referenzsatz anderweitig eingestellt ist oder auf andere Weise nicht mehr zur Verfügung gestellt wird ((i) bis (iv) jeweils ein "**Einstellungereignis**"), soll der Referenzsatz durch einen von der Emittentin wie folgt bestimmten Zinssatz ersetzt werden ("**Nachfolge-Referenzsatz**"):

(I) Der Referenzsatz soll durch den Referenzsatz ersetzt werden, der durch den Administrator des Referenzsatzes, die zuständige Zentralbank oder eine Regulierungs- oder Aufsichtsbehörde als Nachfolge-Zinssatz für den Referenzsatz für die Laufzeit des Referenzsatzes bekannt gegeben wird und der in Übereinstimmung mit geltendem Recht genutzt werden darf; oder (wenn ein solcher Nachfolge-Zinssatz nicht bestimmt werden kann)

(II) der Referenzsatz soll durch einen alternativen Referenzsatz ersetzt werden, der üblicherweise (in Übereinstimmung mit geltendem Recht) als Referenzsatz für variabel verzinsliche Schuldverschreibungen in der jeweiligen Währung mit (dem Referenzsatz) vergleichbarer Laufzeit verwendet wird oder verwendet werden wird; oder (falls ein solcher alternativer Referenzsatz nicht bestimmt werden kann)

(III) der Referenzsatz soll durch einen Satz ersetzt werden, der von der Emittentin nach billigem Ermessen unter Berücksichtigung der Laufzeit des Referenzsatzes und der jeweiligen Währung in wirtschaftlich vertretbarer Weise, basierend auf dem allgemeinen Marktzinsniveau in der Bundesrepublik Deutschland bestimmt wird.

Die Emittentin legt zudem fest, welche Bildschirmseite oder andere Quelle in Verbindung mit einem solchen Nachfolge-Referenzsatz verwendet werden soll (die "**Nachfolge-Bildschirmseite**"). Ab dem Zeitpunkt der Bestimmung des Nachfolge-Referenzsatzes (der "**maßgebliche Zeitpunkt**") gilt jede Bezugnahme auf den Referenzsatz als Bezugnahme auf den Nachfolge-Referenzsatz und jede

Bezugnahme auf die Bildschirmseite bezieht sich vom maßgeblichen Zeitpunkt an als Bezugnahme auf die Nachfolge-Bildschirmseite, und die Bestimmungen dieses Absatzes gelten entsprechend. Die Emittentin informiert die Berechnungsstelle über alle getroffenen Festlegungen. Die Berechnungsstelle informiert anschließend die Gläubiger gemäß § [12]. Der Nachfolge-Referenzsatz findet ab dem ersten Tag der ersten Zinsperiode nach dem Einstellungsergebnis Anwendung, es sei denn, die Emittentin entscheidet sich für die Rückzahlung der Schuldverschreibungen gemäß den nachfolgenden Bestimmungen dieses Absatzes.

Zusätzlich zu einer Ersetzung des Referenzsatzes durch einen Nachfolge-Referenzsatz kann die Emittentin einen Zinsanpassungsfaktor oder Bruch oder Spanne (zu addieren oder zu subtrahieren) festlegen, der oder die bei der Ermittlung des Zinssatzes und bei der Berechnung des Zinsbetrags angewendet werden soll, mit dem Ziel ein Ergebnis zu erzielen, das mit dem wirtschaftlichen Gehalt der Schuldverschreibungen vor Eintritt des Einstellungsergebnisses vereinbar ist und die Interessen der Emittentin und der Gläubiger berücksichtigt und wirtschaftlich gleichwertig für die Emittentin und die Gläubiger ist.

[Im Fall von nachrangigen Schuldverschreibungen: Eine Anpassung des Referenzsatzes gemäß der oben genannten Vorschriften darf nicht durchgeführt werden, wenn und soweit eine solche Anpassung dazu führen würde, dass die Emittentin berechtigt wäre, die Schuldverschreibungen vorzeitig aus regulatorischen Gründen entsprechend § 5[2][3] zurückzuzahlen.]

Wenn ein Einstellungsergebnis eintritt und ein Nachfolge-Referenzsatz nicht gemäß den oben genannten Punkten (I), (II) oder (III) bestimmt werden kann, kann die Emittentin mit vorheriger Zustimmung der Aufsichtsbehörde oder Abwicklungsbehörde, soweit diese aufgrund von Rechtsvorschriften erforderlich ist, die Schuldverschreibungen vollständig, aber nicht teilweise kündigen und vorzeitig zurückzuzahlen. Die Kündigung wird den Gläubigern von der Emittentin gemäß § [12] mitgeteilt. In dieser Mitteilung muss enthalten sein:

- (i) die Serie der Schuldverschreibungen, die von der Kündigung betroffen sind; und
- (ii) das Rückzahlungsdatum, welches [ein Tag der nicht später als der zweite Zinszahlungstag nach dem Einstellungsergebnis und] nicht weniger als [Mindestmitteilung an die Gläubiger] oder mehr als [Maximalmitteilung an die Gläubiger einfügen] [Tage] [TARGET 2-Geschäftstage] nach dem Datum sein darf, an dem die Mitteilung der Emittentin an die Gläubiger erfolgt ist.

Sofern sich die Emittentin für die Rückzahlung der Schuldverschreibungen entscheidet, gilt als Zinssatz ab dem ersten Zinszahlungstag nach dem Einstellungsergebnis bis zum Rückzahlungsdatum [der für die unmittelbar vorausgehende Zinsperiode geltende Zinssatz][der Angebotssatz oder das arithmetische Mittel der Angebotssätze auf der Bildschirmseite, wie vorstehend beschrieben, an dem letzten Tag vor dem Zinsfestlegungstag, an dem diese Angebotssätze angezeigt wurden **[im Fall einer Marge: [zuzüglich][abzüglich]** der Marge (wobei jedoch, falls für die relevante Zinsperiode eine andere Marge als für die unmittelbar vorhergehende Zinsperiode gilt, die relevante Marge an die Stelle der Marge für die vorhergehende Zinsperiode tritt)]. **[Im Falle einer Marge, die zuzüglich des Referenzsatzes gezahlt wird:** Nimmt der ermittelte Angebotssatz einen negativen Wert an, wird er gegen die Marge verrechnet, so dass er die Marge verringert.] Der Zinssatz beträgt stets mindestens 0 (Null).]

[Im Fall von CMS variabel verzinslichen Schuldverschreibungen:

Sollte die maßgebliche Bildschirmseite nicht zur Verfügung stehen oder wird zu der genannten Zeit kein **[maßgebliche Anzahl von Jahren]** Jahres-[**maßgebliche Währung**]-Swapsatz angezeigt, wird die Berechnungsstelle von den Referenzbanken (wie nachstehend definiert) deren jeweilige **[maßgebliche Anzahl von Jahren]** Jahres-[**maßgebliche Währung**]-Swapsätze gegenüber führenden Banken im Interbanken-Swapmarkt in der Euro-Zone (um ca. 11.00 Uhr [(Frankfurter **[zutreffenden anderen Ort]** Ortszeit)]) am Zinsfestlegungstag anfordern. Falls zwei oder mehr Referenzbanken der

Berechnungsstelle solche **[maßgebliche Anzahl von Jahren]** Jahres-[**maßgebliche Währung**]-Swapsätze nennen, ist der Zinssatz für die betreffende Zinsperiode das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein Tausendstel Prozent, wobei 0,0005 aufgerundet wird) dieser **[maßgebliche Anzahl von Jahren]** Jahres-[**maßgebliche Währung**]-Swapsätze **[im Falle eines Faktors:** multipliziert mit **[Faktor]** **[im Fall einer Marge:** **[zuzüglich][abzüglich]** der Marge], wobei alle Festlegungen durch die Berechnungsstelle erfolgen.

Für den Fall, dass der Zinssatz nicht gemäß den vorstehenden Bestimmungen dieses Absatzes ermittelt werden kann, ist der Zinssatz der **[maßgebliche Anzahl von Jahren]** Jahres-[**maßgebliche Währung**]-Swapsatz oder das arithmetische Mittel der **[maßgebliche Anzahl von Jahren]** Jahres-[**maßgebliche Währung**]-Swapsätze auf der Bildschirmseite, wie vorstehend beschrieben, an dem letzten Tag vor dem Zinsfestlegungstag, an dem die **[maßgebliche Anzahl von Jahren]** Jahres-[**maßgebliche Währung**]-Swapsätze angezeigt wurden, **[im Falle eines Faktors:** multipliziert mit **[Faktor]** **[im Fall einer Marge:** **[zuzüglich] [abzüglich]** der Marge].

Wenn (i) die Emittentin oder die Berechnungsstelle den Referenzsatz nicht mehr verwenden darf, (ii) der Administrator des Referenzsatzes die Berechnung und Veröffentlichung des Referenzsatzes dauerhaft oder für eine unbekannte Zeit einstellt, (iii) der Administrator des Referenzsatzes zahlungsunfähig wird oder ein Insolvenz-, Konkurs-, Restrukturierungs- oder ähnliches Verfahren (den Administrator betreffend) durch den Administrator oder durch die Aufsichts- oder Regulierungsbehörde eingeleitet wurde, oder (iv) der Referenzsatz anderweitig eingestellt ist oder auf andere Weise nicht mehr zur Verfügung gestellt wird ((i) bis (iv) jeweils ein "**Einstellungsergebnis**"), soll der Referenzsatz durch einen von der Emittentin wie folgt bestimmten Zinssatz ersetzt werden ("**Nachfolge-Referenzsatz**"):

(I) Der Referenzsatz soll durch den Referenzsatz ersetzt werden, der durch den Administrator des Referenzsatzes, die zuständige Zentralbank oder eine Regulierungs- oder Aufsichtsbehörde als Nachfolge-Zinssatz für den Referenzsatz für die Laufzeit des Referenzsatzes bekannt gegeben wird

und der in Übereinstimmung mit geltendem Recht genutzt werden darf; oder (wenn ein solcher Nachfolge-Zinssatz nicht bestimmt werden kann)

(II) der Referenzsatz soll durch einen alternativen Referenzsatz ersetzt werden, der üblicherweise (in Übereinstimmung mit geltendem Recht) als Referenzsatz für variabel verzinsliche Schuldverschreibungen in der jeweiligen Währung mit (dem Referenzsatz) vergleichbarer Laufzeit verwendet wird oder verwendet werden wird; oder (falls ein solcher alternativer Referenzsatz nicht bestimmt werden kann)

(III) der Referenzsatz soll durch einen Satz ersetzt werden, der von der Emittentin nach billigem Ermessen unter Berücksichtigung der Laufzeit des Referenzsatzes und der jeweiligen Währung in wirtschaftlich vertretbarer Weise, basierend auf dem allgemeinen Marktzinsniveau in der Bundesrepublik Deutschland bestimmt wird.

Die Emittentin legt zudem fest, welche Bildschirmseite oder andere Quelle in Verbindung mit einem solchen Nachfolge-Referenzsatz verwendet werden soll (die "**Nachfolge-Bildschirmseite**"). Ab dem Zeitpunkt der Bestimmung des Nachfolge-Referenzsatzes (der "**maßgebliche Zeitpunkt**") gilt jede Bezugnahme auf den Referenzsatz als Bezugnahme auf den Nachfolge-Referenzsatz und jede Bezugnahme auf die Bildschirmseite bezieht sich vom maßgeblichen Zeitpunkt an als Bezugnahme auf die Nachfolge-Bildschirmseite, und die Bestimmungen dieses Absatzes gelten entsprechend. Die Emittentin informiert die Berechnungsstelle über alle getroffenen Festlegungen. Die Berechnungsstelle informiert anschließend die Gläubiger gemäß § [12]. Der Nachfolge-Referenzsatz findet ab dem ersten Tag der ersten Zinsperiode nach dem Einstellungsereignis Anwendung, es sei denn, die Emittentin entscheidet sich für die Rückzahlung der Schuldverschreibungen gemäß den nachfolgenden Bestimmungen dieses Absatzes.

Zusätzlich zu einer Ersetzung des Referenzsatzes durch einen Nachfolge-Referenzsatz kann die Emittentin einen Zinsanpassungsfaktor oder Bruch oder Spanne (zu addieren oder zu subtrahieren) festlegen, der oder die bei der Ermittlung des Zinssatzes und bei der Berechnung des Zinsbetrags angewendet werden soll, mit dem Ziel ein Ergebnis zu erzielen, das mit dem wirtschaftlichen Gehalt der Schuldverschreibungen vor Eintritt des Einstellungsereignisses vereinbar ist und die Interessen der Emittentin und der Gläubiger berücksichtigt und wirtschaftlich gleichwertig für die Emittentin und die Gläubiger ist.

Wenn ein Einstellungsereignis eintritt und ein Nachfolge-Referenzsatz nicht gemäß den oben genannten Punkten (I), (II) oder (III) bestimmt werden kann, kann die Emittentin mit vorheriger Zustimmung der Aufsichtsbehörde oder Abwicklungsbehörde, soweit diese aufgrund von Rechtsvorschriften erforderlich ist, die Schuldverschreibungen vollständig, aber nicht teilweise kündigen und vorzeitig zurückzuzahlen. Die Kündigung wird den Gläubigern von der Emittentin gemäß § [12] mitgeteilt. In dieser Mitteilung muss enthalten sein:

- (i) die Serie der Schuldverschreibungen, die von der Kündigung betroffen sind; und
- (ii) das Rückzahlungsdatum, welches [ein Tag der nicht später als der zweite Zinszahlungstag nach dem Einstellungsereignis und] nicht weniger als [Mindestmitteilung an die Gläubiger] oder mehr als [**Maximalmitteilung an die Gläubiger einfügen**] [Tage] [TARGET 2-Geschäftstage] nach dem Datum sein darf, an dem die Mitteilung der Emittentin an die Gläubiger erfolgt ist.

[(4)] Zinsbetrag. Die Berechnungsstelle wird zu oder baldmöglichst nach jedem Zinsfestlegungstag den Zinssatz bestimmen und den auf die Schuldverschreibungen zahlbaren Zinsbetrag in Bezug auf jede festgelegte Stückelung (der "**Zinsbetrag**") für die entsprechende Zinsperiode berechnen. Der Zinsbetrag wird ermittelt, indem der Zinssatz und der Zinstagequotient (wie nachstehend definiert) auf jede festgelegte Stückelung angewendet werden, wobei der resultierende Betrag **[falls die festgelegte Währung Euro ist:** auf den nächsten 0,01 Euro auf- oder abgerundet wird, wobei 0,005 Euro aufgerundet werden] **[falls die festgelegte Währung nicht Euro ist:** auf die kleinste Einheit der festgelegten Währung auf- oder abgerundet wird, wobei 0,5 solcher Einheiten aufgerundet werden].

[(5)] Mitteilung von Zinssatz und Zinsbetrag. Die Berechnungsstelle wird veranlassen, dass der Zinssatz, der Zinsbetrag für die jeweilige Zinsperiode, die jeweilige Zinsperiode und der betreffende **[Festgelegte]** Zinszahlungstag der Emittentin und den Gläubigern gemäß § [12] sowie jeder Börse, an der die betreffenden Schuldverschreibungen zu diesem Zeitpunkt notiert sind und deren Regeln eine Mitteilung an die Börse verlangen, unverzüglich mitgeteilt werden. Im Fall einer Verlängerung oder Verkürzung der Zinsperiode können der mitgeteilte Zinsbetrag und **[Festgelegte]** Zinszahlungstag ohne Vorankündigung nachträglich angepasst (oder andere geeignete Anpassungsregelungen getroffen) werden. Jede solche Anpassung wird umgehend allen Börsen, an denen die Schuldverschreibungen zu diesem Zeitpunkt notiert sind, sowie den Gläubigern gemäß § [12] mitgeteilt.

[(6)] Verbindlichkeit der Festsetzungen. Alle Bescheinigungen, Mitteilungen, Gutachten, Festsetzungen, Berechnungen, Quotierungen und Entscheidungen, die von der Berechnungsstelle für die Zwecke dieses § 3 gemacht, abgegeben, getroffen oder eingeholt werden, sind (sofern nicht ein offensichtlicher Irrtum vorliegt) für die Emittentin, die

Emissionsstelle[, die Zahlstellen] und die Gläubiger bindend.

- [7)] *Auflaufende Zinsen.* Der Zinslauf der Schuldverschreibungen endet an dem Tag, an dem sie zur Rückzahlung fällig werden. Sollte die Emittentin die Schuldverschreibungen bei Fälligkeit nicht einlösen, endet die Verzinsung des ausstehenden Nennbetrags der Schuldverschreibungen nicht am Fälligkeitstag, sondern erst mit der tatsächlichen Rückzahlung der Schuldverschreibungen. Der jeweils geltende Zinssatz wird gemäß diesem § 3 bestimmt. Weitergehende Ansprüche der Gläubiger bleiben unberührt.⁵

- (1) *Keine periodischen Zinszahlungen.* Es erfolgen keine periodischen Zinszahlungen auf die Schuldverschreibungen.
- (2) *Auflaufende Zinsen.* Sollte die Emittentin die Schuldverschreibungen bei Fälligkeit nicht einlösen, fallen auf den ausstehenden Nennbetrag der Schuldverschreibungen ab [dem Fälligkeitstag bis zum Tag der tatsächlichen Rückzahlung Zinsen in Höhe von [Emissionsrendite] per annum an. Weitergehende Ansprüche der Gläubiger bleiben unberührt.⁶]

der Anzahl der Tage in der Zinslaufperiode, die in die Feststellungsperiode fallen, in welcher die Zinslaufperiode beginnt, geteilt durch das Produkt (x) der Anzahl der Tage in der Feststellungsperiode und (y) der Anzahl von Feststellungsterminen (wie in §3(1) definiert) in einem Kalenderjahr; und

der Anzahl der Tage in der Zinslaufperiode, die in die nächste Feststellungsperiode fallen, geteilt durch das Produkt (x) der Anzahl der Tage in dieser Feststellungsperiode und (y) der Anzahl von Feststellungsterminen (wie in §3(1) definiert angegeben) in einem Kalenderjahr.

§ 2 STATUS

[In the case of unsubordinated (*preferred*) Notes:

- (1) *Unsubordinated (preferred) Notes.* The obligations under the Notes constitute unsecured and unsubordinated obligations of the Issuer ranking *pari passu* (ranking equal) among themselves and *pari passu* (ranking equal) with all other unsecured and unsubordinated present and future obligations of the Issuer unless otherwise provided by mandatory provisions of law or the contractual conditions of the Notes refer explicitly to a lower ranking.]

[In the case of MREL eligibility:

- (2) *No right to set-off.* Offsetting with and against claims arising under the Notes is excluded.
- (3) *No security.* No security or guarantee of whatever kind is, or shall at any time be, provided by the Issuer or any other person securing or guaranteeing rights of the Holders under such Notes.
- (4) *Subsequent Modifications of the Ranking and the Term as well as any Notice Periods.* No subsequent agreement may modify the ranking of the Notes or shorten the term of the Notes or any applicable notice period.]

[In the case of unsubordinated, non-preferred Notes:

- (1) *Unsubordinated, non-preferred Notes.* The obligations under the Notes constitute unsecured and unsubordinated, non-preferred obligations of the Issuer ranking *pari passu* with each other and with all other unsecured and unsubordinated liabilities of the Issuer, with the following exemption:

As unsubordinated, non-preferred obligations of the Issuer claims under the Notes rank subordinated to other unsecured and unsubordinated obligations of the Issuer if and to the extent that such unsecured and unsubordinated obligations enjoy preferred treatment by law in insolvency proceedings or in case of an imposition of resolution measures with regard to the Issuer, but in each case rank senior to any subordinated debt of the Issuer.

The Notes constitute non-preferred debt instruments within the meaning of section 46f (6) sentence 1 of the German Banking Act (*Kreditwesengesetz*) which in an insolvency proceeding of the Issuer have the ranking lower than other unsecured and unsubordinated obligations of the Issuer as provided by section 46f (5) of the German Banking Act (*Kreditwesengesetz*).

- (2) *No right to set-off.* Offsetting with and against claims arising under the Notes is excluded.
- (3) *No security.* No security or guarantee of whatever kind is, or shall at any time be, provided by the Issuer or any other person securing or guaranteeing rights of the Holders under such Notes.

The obligations under the Notes constitute unsecured and subordinated obligations of the Issuer ranking *pari passu* (ranking equal) among themselves and ranking *pari passu* (ranking equal) with all other unsecured and subordinated present or future obligations of the Issuer, subject to provisions of law or the terms of any such other subordinated liabilities determining the status of the Notes within the subordination differently.

- (2) *Liquidation or insolvency of the Issuer or avoidance of insolvency.* In the event of the dissolution, liquidation or insolvency of the Issuer, the composition or other proceedings for the avoidance of insolvency such obligations will be fully subordinated to the claims of all unsubordinated other creditors (including, but not limited to, claims against the Issuer under its eligible liabilities instruments pursuant to Article 72b CRR) of the Issuer so that in any such event no amounts shall be payable under such obligations until the claims of all unsubordinated other creditors of the Issuer shall have been satisfied in full. If the Notes are redeemed before the Maturity Date otherwise than in the circumstances described in this § 2 or as a result of an early redemption according to § 5(2) or § 5(3) or § 5(4) or repurchased by the Issuer, then the amounts redeemed or paid must be returned to the Issuer irrespective of any agreement to the contrary unless the competent authority has consented to such redemption or repurchase. If on any Interest Determination Date only one or none of the Reference Banks provides the Calculation Agent with such offered quotations as provided in the preceding paragraph, the Rate of Interest for the relevant Interest Period shall be the rate per annum which the Calculation Agent determines as being the arithmetic mean (rounded, if necessary, to the nearest one [**if the Reference Rate is EURIBOR**: thousandth of a percentage point, with 0.0005] [**if the Reference Rate is LIBOR**: hundred-thousandth of a percentage point, with 0.000005] being rounded upwards) of the rates, as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, as at 11.00 a.m. ([Brussels] [London] time) on the relevant Interest Determination Date, deposits in the Specified Currency for the relevant Interest Period by leading banks in the [London] [**other relevant location**] interbank market [of the Euro-zone] [**in the case of Margin**: [plus] [minus] the Margin] or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for the relevant Interest Period, or the arithmetic mean (rounded as provided above) of the offered rates for deposits in the Specified Currency for the relevant Interest Period, at which, on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for such purpose) inform(s) the Calculation Agent it is or they are quoting to leading banks in the [London] [**other relevant location**] interbank market [of the Euro-zone] (or, as the case may be, the quotations of such bank or banks to the Calculation Agent) [**in the case of Margin**: [plus] [minus] the Margin]. If the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be the offered quotation or the arithmetic mean of the offered quotations on the Screen Page, as described above, on the last day preceding the Interest Determination Date on which such quotations were offered [**in the case of Margin**: [plus] [minus] the Margin (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period in place of the Margin relating to that last preceding Interest Period)].

(I) The Reference Rate shall be replaced with the reference rate which is announced by the administrator of the Reference Rate, the competent central bank or a regulatory or supervisory authority as the successor rate for the Reference Rate for the term of the Reference Rate and which can be used in accordance with applicable law; or (if such a successor rate can not be determined)

(II) the Reference Rate shall be replaced with an alternative reference rate, which is or will be commonly used (in accordance with applicable law) as a reference rate for a comparable term for floating rate notes in the respective currency; or (if such an alternative reference rate can not be determined)

(III) the Reference Rate shall be replaced with a rate, which is determined by the Issuer in its reasonable discretion (*billiges Ermessen*) with regard to the term of the Reference Rate and the relevant currency in a commercially reasonable manner based on the general market interest levels in the Federal Republic of Germany.

[**In the case of subordinated Notes:** No adjustment to the Reference Rate will be made in accordance with the provisions set out above if and to the extent that as a result of such adjustment the Issuer would be entitled to redeem the Notes early for regulatory reasons according to §5 [(2)][(3)].]

Notice of such redemption shall be given by the Issuer to the Noteholders in accordance with § [12]. Such notice shall specify:

[Im Fall von Pfandbriefen, die anfänglich durch eine vorläufige Globalurkunde verbrieft sind, (anwendbar bei TEFRA D):

- (3) *Vorläufige Globalurkunde – Austausch.*

(a) Die Pfandbriefe sind anfänglich durch eine vorläufige Globalurkunde (die "vorläufige Globalurkunde") ohne Zinsscheine verbrieft. Die vorläufige Globalurkunde wird gegen Pfandbriefe im Nennbetrag, die durch eine Dauerglobalurkunde (die "Dauerglobalurkunde") ohne Zinsscheine verbrieft sind, ausgetauscht. Die vorläufige Globalurkunde und die Dauerglobalurkunde tragen jeweils die eigenhändigen Unterschriften zweier ordnungsgemäß bevollmächtigter Vertreter der Emittentin sowie die eigenhändige oder faksimilierte Unterschrift des von der Bundesanstalt für Finanzdienstleistungsaufsicht bestellten Treuhänders und sind jeweils von der Emissionsstelle oder in deren Namen mit einer Kontrollunterschrift versehen. Eine gesonderte Bescheinigung ist hinsichtlich einer jeden solchen Zinszahlung erforderlich. Jede Bescheinigung, die am oder nach dem 40. Tag nach dem Tag der Ausgabe der durch die vorläufige Globalurkunde verbrieften Pfandbriefe eingeht, wird als ein Ersuchen behandelt werden, diese vorläufige Globalurkunde gemäß Absatz (b) dieses § 1(3) auszutauschen. Wertpapiere, die im Austausch für die vorläufige Globalurkunde geliefert werden, sind nur außerhalb der Vereinigten Staaten zu liefern.]

- (4) *Clearing System.* Jede vorläufige Globalurkunde (falls diese nicht ausgetauscht wird) und/oder jede Dauerglobalurkunde wird so lange von einem oder im Namen eines Clearing Systems verwahrt, bis sämtliche Verbindlichkeiten der Emittentin aus den Pfandbriefen erfüllt sind. - (5) *Gläubiger von Pfandbriefen.* "Gläubiger" bedeutet jeder Inhaber eines Miteigentumsanteils oder anderen Rechts an den Pfandbriefen.

Die erste Zinszahlung erfolgt am [ersten Zinszahlungstag] [Im Falle eines ersten kurzen/langen Kupons: und beläuft sich auf [anfänglichen Bruchteilzinsbetrag pro festgelegte Stückelung] je Pfandbrief.] [Im Falle eines letzten kurzen/langen Kupons: Die Zinsen für den Zeitraum vom [den letzten dem Fälligkeitstag vorausgehenden Festzinstermin] (einschließlich) bis zum Fälligkeitstag (ausschließlich) belaufen sich auf [abschließenden Bruchteilzinsbetrag pro festgelegte Stückelung] je Pfandbrief.] [Falls die festgelegte

Währung Euro ist und falls Actual/Actual (ICMA)²⁴ anwendbar ist: Die Anzahl der Zinszahlungstage im Kalenderjahr (jeweils ein "Feststellungstermin") beträgt [Anzahl der regulären Zinszahlungstage im Kalenderjahr].]

- (2) *Auflaufende Zinsen.* Der Zinslauf der Pfandbriefe endet an dem Tag, der dem Tag vorausgeht, an dem sie zur Rückzahlung fällig werden. Falls die Emittentin die Pfandbriefe bei Fälligkeit nicht einlöst, endet die Verzinsung des ausstehenden Nennbetrages der Pfandbriefe nicht am Tag der Fälligkeit, sondern erst an dem Tag, der dem Tag der tatsächlichen Rückzahlung der Pfandbriefe vorausgeht. Weitergehende Ansprüche der Gläubiger bleiben unberührt.²⁵
- (3) *Berechnung der Zinsen für Teile von Zeiträumen.* Sofern Zinsen für einen Zeitraum von weniger als einem Jahr zu berechnen sind, erfolgt die Berechnung auf der Grundlage des Zinstagequotienten (wie nachstehend definiert).]

[(B) Im Fall von variabel verzinslichen Pfandbriefen:

- (1) *Festgelegte Zinszahlungstage.*
 - (a) Die Pfandbriefe werden in Höhe ihres Gesamtnennbetrages ab dem **[Verzinsungsbeginn]** (der "**Verzinsungsbeginn**") (einschließlich) bis zum ersten Festgelegten Zinszahlungstag (ausschließlich) und danach von jedem Festgelegten Zinszahlungstag (einschließlich) bis zum nächstfolgenden Festgelegten Zinszahlungstag (ausschließlich) verzinst.  - (c) Fällt ein Festgelegter Zinszahlungstag auf einen Tag, der kein Geschäftstag (wie nachstehend definiert) ist, so wird der Festgelegte Zinszahlungstag
 - [**(i) bei Anwendung der Modifizierte Folgender Geschäftstag-Konvention:** auf den nächstfolgenden Geschäftstag verschoben, es sei denn, jener würde dadurch in den nächsten Kalendermonat fallen; in diesem Fall wird der Festgelegte Zinszahlungstag auf den unmittelbar vorausgehenden Geschäftstag vorgezogen.]
 - [**(ii) bei Anwendung der FRN-Konvention**²⁶: auf den nächstfolgenden Geschäftstag verschoben, es sei denn, jener würde dadurch in den nächsten Kalendermonat fallen; in diesem Fall (i) wird der Festgelegte Zinszahlungstag auf den unmittelbar vorausgehenden Geschäftstag vorgezogen und (ii) ist jeder nachfolgende Festgelegte Zinszahlungstag der jeweils letzte

 - [**(iv)** **bei Anwendung der Vorangegangener Geschäftstag-Konvention:** auf den unmittelbar vorausgehenden Geschäftstag vorgezogen.]
- (d) In diesem §3 bezeichnet "**Geschäftstag**" einen Tag (außer einem Samstag oder Sonntag), an dem (i) das Clearing System und (ii) [**falls die festgelegte Währung Euro ist:** das Trans-European Automated Real-Time Gross Settlement Express Transfer System 2 ("**TARGET 2**")] [**falls die festgelegte Währung nicht Euro ist:** Geschäftsbanken und Devisenmärkte in [**sämtliche relevanten Finanzzentren**]] Zahlungen abwickeln.
- (2) **Zinssatz.** Der Zinssatz (der "**Zinssatz**") für jede Zinsperiode (wie nachstehend definiert) ist, sofern nachstehend nichts Abweichendes bestimmt wird, der [**•**]-Monats-[EURIBOR®] [LIBOR®] Angebotssatz (ausgedrückt als Prozentsatz per annum) für Einlagen in der festgelegten Währung für die jeweilige Zinsperiode, der auf der Bildschirmseite am Zinsfestlegungstag (wie nachstehend definiert) gegen 11.00 Uhr ([Brüsseler] [Londoner] Ortszeit) angezeigt wird (der "**Referenzsatz**") [**im Fall einer Marge:** [zuzüglich] [abzüglich] der Marge (wie nachstehend definiert)], wobei alle Festlegungen durch die Berechnungsstelle erfolgen.

[**falls kein Mindestzinssatz vorgesehen ist, einfügen:** Der Zinssatz für eine Zinsperiode beträgt in jedem Fall mindestens null, d.h. ein negativer Zinssatz ist ausgeschlossen.]

"**Zinsperiode**" bezeichnet jeweils den Zeitraum von dem Verzinsungsbeginn (einschließlich) bis zum ersten Festgelegten Zinszahlungstag (ausschließlich) bzw. von jedem Festgelegten Zinszahlungstag (einschließlich) bis zum jeweils darauffolgenden Festgelegten Zinszahlungstag (ausschließlich).

"**Zinsfestlegungstag**" bezeichnet den [**zweiten**] [**zutreffende andere Zahl von Tagen**] [**TARGET 2-**] [**Londoner**] [**zutreffende andere Bezugnahmen**] Geschäftstag vor Beginn der jeweiligen Zinsperiode. [**Im Fall einer Marge:** Die "**Marge**" beträgt [] % per annum.]

"**Bildschirmseite**" bedeutet [**Bildschirmseite**] oder jede Nachfolgeseite.

Sollte die maßgebliche Bildschirmseite nicht zur Verfügung stehen, oder wird darauf kein Angebotssatz angezeigt (zu der genannten Zeit), wird die Berechnungsstelle von den [**Londoner**] [**zutreffenden anderen Ort**] Hauptniederlassungen jeder der Referenzbanken (wie nachstehend definiert) [in der Euro-Zone] deren jeweilige Angebotssätze (jeweils als Prozentsatz per annum ausgedrückt) für Einlagen in der festgelegten Währung für die betreffende Zinsperiode gegenüber führenden Banken im [**Londoner**] [**zutreffenden anderen Ort**] Interbanken-Markt [in der Euro-Zone] um ca. 11.00 Uhr ([Brüsseler] [Londoner] Ortszeit) am Zinsfestlegungstag anfordern. Falls zwei oder mehr Referenzbanken der

Berechnungsstelle solche Angebotssätze nennen, ist der Zinssatz für die betreffende Zinsperiode das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein [falls der Referenzsatz EURIBOR²⁷ ist: Tausendstel Prozent, wobei 0,0005] [falls der Referenzsatz LIBOR ist: Hunderttausendstel Prozent, wobei 0,000005] aufgerundet wird) dieser Angebotssätze [im Fall einer Marge: [zuzüglich] [abzüglich] der Marge], wobei alle Festlegungen durch die Berechnungsstelle erfolgen.

Falls an einem Zinsfestlegungstag nur eine oder keine der Referenzbanken der Berechnungsstelle solche im vorstehenden Absatz beschriebenen Angebotssätze nennt, ist der Zinssatz für die betreffende Zinsperiode der Satz per annum, den die Berechnungsstelle als das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein [falls der Referenzsatz EURIBOR ist: Tausendstel Prozent, wobei 0,0005] [falls der Referenzsatz LIBOR ist: Hunderttausendstel Prozent, wobei 0,000005] aufgerundet wird) der Angebotssätze ermittelt, die die Referenzbanken bzw. zwei oder mehrere von ihnen der Berechnungsstelle auf deren Anfrage als den jeweiligen Satz nennen, zu dem ihnen um ca. 11.00 Uhr ([Brüsseler] [Londoner] Ortszeit) an dem betreffenden Zinsfestlegungstag Einlagen in der festgelegten Währung für die betreffende Zinsperiode von führenden Banken im [Londoner] [zutreffenden anderen Ort] Interbanken-Markt [in der Euro-Zone] angeboten werden [im Fall einer Marge: [zuzüglich] [abzüglich] der Marge]; falls weniger als zwei der Referenzbanken der Berechnungsstelle solche Angebotssätze nennen, dann soll der Zinssatz für die betreffende Zinsperiode der Angebotssatz für Einlagen in der festgelegten Währung für die betreffende Zinsperiode oder das arithmetische Mittel (gerundet wie oben beschrieben) der Angebotssätze für Einlagen in der festgelegten Währung für die betreffende Zinsperiode sein, den bzw. die eine oder mehrere Banken (die nach Ansicht der Emittentin für diesen Zweck geeignet sind) der Berechnungsstelle als Sätze bekannt geben, die sie an dem betreffenden Zinsfestlegungstag gegenüber führenden Banken am [Londoner] [zutreffenden anderen Ort] Interbanken-Markt [in der Euro-Zone] nennen (bzw. den diese Banken gegenüber der Berechnungsstelle nennen) [im Fall einer Marge: [zuzüglich] [abzüglich] der Marge]. Für den Fall, dass der Zinssatz nicht gemäß den vorstehenden Bestimmungen dieses Absatzes ermittelt werden kann, ist der Zinssatz der Angebotssatz oder das arithmetische Mittel der Angebotssätze auf der Bildschirmseite, wie vorstehend beschrieben, an dem letzten Tag vor dem Zinsfestlegungstag, an dem diese Angebotssätze angezeigt wurden [im Fall einer Marge: [zuzüglich] [abzüglich] der Marge (wobei jedoch, falls für die betreffende Zinsperiode eine andere Marge als für die unmittelbar vorhergehende Zinsperiode gilt, die Marge der betreffenden Zinsperiode an die Stelle der Marge für die vorhergehende Zinsperiode tritt)].

"Referenzbanken" bezeichnen [falls in den Endgültigen Bedingungen keine anderen Referenzbanken bestimmt werden: diejenigen von der Emittentin benannten Niederlassungen von vier derjenigen Banken, deren Angebotssätze zur Ermittlung des maßgeblichen Angebotssatzes zu dem Zeitpunkt benutzt wurden, als solch ein Angebot letztmals auf der maßgeblichen Bildschirmseite angezeigt wurde] [falls in den Endgültigen Bedingungen andere Referenzbanken bestimmt werden, sind sie hier einzufügen].

Wenn (i) die Emittentin oder die Berechnungsstelle den Referenzsatz nicht mehr verwenden darf, (ii) der Administrator des Referenzsatzes die Berechnung und Veröffentlichung des Referenzsatzes dauerhaft oder für eine unbestimmte Zeit einstellt, (iii) der Administrator des Referenzsatzes zahlungsunfähig wird oder ein Insolvenz-, Konkurs-, Restrukturierungs- oder ähnliches Verfahren (den Administrator betreffend) durch den Administrator oder durch die Aufsichts- oder Regulierungsbehörde eingeleitet wurde, oder (iv) der Referenzsatz anderweitig eingestellt ist oder auf andere Weise nicht mehr zur Verfügung gestellt wird ((i) bis (iv) jeweils ein "Einstellungsereignis"), soll der Referenzsatz durch einen von der Emittentin wie folgt bestimmten Zinssatz ersetzt werden ("Nachfolge-Referenzsatz"):

²⁷ Euro Inter Bank Offered Rate

(I) Der Referenzsatz soll durch den Referenzsatz ersetzt werden, der durch den Administrator des Referenzsatzes, die zuständige Zentralbank oder eine Regulierungs- oder Aufsichtsbehörde als Nachfolge-Zinssatz für den Referenzsatz für die Laufzeit des Referenzsatzes bekannt gegeben wird und der in Übereinstimmung mit geltendem Recht genutzt werden darf; oder (wenn ein solcher Nachfolge-Zinssatz nicht bestimmt werden kann)

(II) der Referenzsatz soll durch einen alternativen Referenzsatz ersetzt werden, der üblicherweise (in Übereinstimmung mit geltendem Recht) als Referenzsatz für variabel verzinsliche Pfandbriefe in der jeweiligen Währung mit (dem Referenzsatz) vergleichbarer Laufzeit verwendet wird oder verwendet werden wird; oder (falls ein solcher alternativer Referenzsatz nicht bestimmt werden kann)

(III) der Referenzsatz soll durch einen Satz ersetzt werden, der von der Emittentin nach billigem Ermessen unter Berücksichtigung der Laufzeit des Referenzsatzes und der jeweiligen Währung in wirtschaftlich vertretbarer Weise, basierend auf dem allgemeinen Marktzinsniveau in der Bundesrepublik Deutschland bestimmt wird.

Die Emittentin legt zudem fest, welche Bildschirmseite oder andere Quelle in Verbindung mit einem solchen Nachfolge-Referenzsatz verwendet werden soll (die "**Nachfolge-Bildschirmseite**"). Ab dem Zeitpunkt der Bestimmung des Nachfolge-Referenzsatzes (der "**maßgebliche Zeitpunkt**") gilt jede Bezugnahme auf den Referenzsatz als Bezugnahme auf den Nachfolge-Referenzsatz und jede Bezugnahme auf die Bildschirmseite bezieht sich vom maßgeblichen Zeitpunkt an als Bezugnahme auf die Nachfolge-Bildschirmseite, und die Bestimmungen dieses Absatzes gelten entsprechend. Die Emittentin informiert die Berechnungsstelle über alle getroffenen Festlegungen. Die Berechnungsstelle informiert anschließend die Gläubiger gemäß § [10]. Der Nachfolge-Referenzsatz findet ab dem ersten Tag der ersten Zinsperiode nach dem Einstellungsergebnis Anwendung, es sei denn, die Emittentin entscheidet sich für die Rückzahlung der Pfandbriefe gemäß den nachfolgenden Bestimmungen dieses Absatzes.

Zusätzlich zu einer Ersetzung des Referenzsatzes durch einen Nachfolge-Referenzsatz kann die Emittentin einen Zinsanpassungsfaktor oder Bruch oder Spanne (zu addieren oder zu subtrahieren) festlegen, der oder die bei der Ermittlung des Zinssatzes und bei der Berechnung des Zinsbetrags angewendet werden soll, mit dem Ziel ein Ergebnis zu erzielen, das mit dem wirtschaftlichen Gehalt der Pfandbriefe vor Eintritt des Einstellungsergebnisses vereinbar ist und die Interessen der Emittentin und der Gläubiger berücksichtigt und wirtschaftlich gleichwertig für die Emittentin und die Gläubiger ist.

Wenn ein Einstellungsergebnis eintritt und ein Nachfolge-Referenzsatz nicht gemäß den oben genannten Punkten (I), (II) oder (III) bestimmt werden kann, kann die Emittentin die Pfandbriefe vollständig, aber nicht teilweise kündigen und vorzeitig zurückzahlen. Die Kündigung wird den Gläubigern von der Emittentin gemäß § [10] mitgeteilt. In dieser Mitteilung muss enthalten sein:

- (i) die Serie der Pfandbriefe, die von der Kündigung betroffen sind; und
- (ii) das Rückzahlungsdatum, welches [ein Tag der nicht später als der zweite Zinszahlungstag nach dem Einstellungsergebnis und] nicht weniger als [**Mindestmitteilung an die Gläubiger**] oder mehr als [**Maximalmitteilung an die Gläubiger einfügen**] [Tage] [TARGET 2-Geschäftstage] nach dem Datum sein darf, an dem die Mitteilung der Emittentin an die Gläubiger erfolgt ist.

Sofern sich die Emittentin für die Rückzahlung der Pfandbriefe entscheidet, gilt als Zinssatz ab dem ersten Zinszahlungstag nach dem Einstellungsergebnis bis zum Rückzahlungsdatum

[der für die unmittelbar vorausgehende Zinsperiode geltende Zinssatz][der Angebotssatz oder das arithmetische Mittel der Angebotssätze auf der Bildschirmseite, wie vorstehend beschrieben, an dem letzten Tag vor dem Zinsfestlegungstag, an dem diese Angebotssätze angezeigt wurden **[im Fall einer Marge:** [zuzüglich][abzüglich] der Marge (wobei jedoch, falls für die relevante Zinsperiode eine andere Marge als für die unmittelbar vorhergehende Zinsperiode gilt, die relevante Marge an die Stelle der Marge für die vorhergehende Zinsperiode tritt)]. **[Im Falle einer Marge, die zuzüglich des Referenzsatzes gezahlt wird:** Nimmt der ermittelte Angebotssatz einen negativen Wert an, wird er gegen die Marge verrechnet, so dass er die Marge verringert.] Der Zinssatz beträgt stets mindestens 0 (Null).]

[Im Fall des Interbankenmarktes in der Euro-Zone: "Euro-Zone" bezeichnet das Gebiet derjenigen Mitgliedstaaten der Europäischen Union, die gemäß dem Vertrag über die Gründung der Europäischen Gemeinschaft (unterzeichnet in Rom am 25. März 1957), geändert durch den Vertrag über die Europäische Union (unterzeichnet in Maastricht am 7. Februar 1992) und den Amsterdamer Vertrag vom 2. Oktober 1997, in seiner jeweiligen Fassung, eine einheitliche Währung eingeführt haben oder jeweils eingeführt haben werden.]

[Falls ein Mindest- und/oder Höchstzinssatz gilt:

- (3) *[Mindest-] [und] [Höchst-] Zinssatz.*

[Falls ein Mindestzinssatz gilt: Wenn der gemäß den obigen Bestimmungen für eine Zinsperiode ermittelte Zinssatz niedriger ist als **[Mindestzinssatz]**, so ist der Zinssatz für diese Zinsperiode **[Mindestzinssatz].**]

[Falls ein Höchstzinssatz gilt: Wenn der gemäß den obigen Bestimmungen für eine Zinsperiode ermittelte Zinssatz höher ist als **[Höchstzinssatz]**, so ist der Zinssatz für diese Zinsperiode **[Höchstzinssatz].**]

- (4) **Zinsbetrag.** Die Berechnungsstelle wird zu oder baldmöglichst nach jedem Zinsfestlegungstag den Zinssatz bestimmen und den auf die Pfandbriefe zahlbaren Zinsbetrag in Bezug auf jede festgelegte Stückelung (der "**Zinsbetrag**") für die entsprechende Zinsperiode berechnen. Der Zinsbetrag wird ermittelt, indem der Zinssatz und der Zinstagequotient (wie nachstehend definiert) auf jede festgelegte Stückelung angewendet werden, wobei der resultierende Betrag **[falls die festgelegte Währung Euro ist:** auf den nächsten 0,01 Euro auf- oder abgerundet wird, wobei 0,005 Euro aufgerundet werden] **[falls die festgelegte Währung nicht Euro ist:** auf die kleinste Einheit der festgelegten Währung auf- oder abgerundet wird, wobei 0,5 solcher Einheiten aufgerundet werden].
- (5) **Mitteilung von Zinssatz und Zinsbetrag.** Die Berechnungsstelle wird veranlassen, dass der Zinssatz, der Zinsbetrag für die jeweilige Zinsperiode, die jeweilige Zinsperiode und der betreffende **[Festgelegte]** Zinszahlungstag der Emittentin und den Gläubigern gemäß § [10] sowie jeder Börse, an der die betreffenden Pfandbriefe zu diesem Zeitpunkt notiert sind und deren Regeln eine Mitteilung an die Börse verlangen, unverzüglich mitgeteilt werden. Im Fall einer Verlängerung oder Verkürzung der Zinsperiode können der mitgeteilte Zinsbetrag und **[Festgelegte]** Zinszahlungstag ohne Vorankündigung nachträglich angepasst (oder andere geeignete Anpassungsregelungen getroffen) werden. Jede solche Anpassung wird umgehend allen Börsen, an denen die Pfandbriefe zu diesem Zeitpunkt notiert sind, sowie den Gläubigern gemäß § [10] mitgeteilt.
- (6) **Verbindlichkeit der Festsetzungen.** Alle Bescheinigungen, Mitteilungen, Gutachten, Festsetzungen, Berechnungen, Quotierungen und Entscheidungen, die von der Berechnungsstelle für die Zwecke dieses § 3 gemacht, abgegeben, getroffen oder eingeholt werden, sind (sofern nicht ein offensichtlicher Irrtum vorliegt) für die Emittentin, die Emissionsstelle[die Zahlstellen] und die Gläubiger bindend.

- [(7)] *Auflaufende Zinsen.* Der Zinslauf der Pfandbriefe endet an dem Tag, an dem sie zur Rückzahlung fällig werden. Sollte die Emittentin die Pfandbriefe bei Fälligkeit nicht einlösen, endet die Verzinsung des ausstehenden Nennbetrags der Pfandbriefe nicht am Fälligkeitstag, sondern erst mit der tatsächlichen Rückzahlung der Pfandbriefe. Der jeweils geltende Zinssatz wird gemäß diesem § 3 bestimmt. Weitergehende Ansprüche der Gläubiger bleiben unberührt.^{28]}

[(C) Im Fall von Nullkupon-Pfandbriefen:

- (1) *Keine periodischen Zinszahlungen.* Es erfolgen keine periodischen Zinszahlungen auf die Pfandbriefe.
- (2) *Auflaufende Zinsen.* Sollte die Emittentin die Pfandbriefe bei Fälligkeit nicht einlösen, fallen auf den ausstehenden Nennbetrag der Pfandbriefe ab dem Fälligkeitstag bis zum Tag der tatsächlichen Rückzahlung Zinsen in Höhe von [Emissionsrendite] per annum an. Weitergehende Ansprüche der Gläubiger bleiben unberührt.^{29]}

[(3)][(4)][(8)] *Zinstagequotient.* "Zinstagequotient" bezeichnet im Hinblick auf die Berechnung eines Zinsbetrages auf einen Pfandbrief für einen beliebigen Zeitraum (der "Zinsberechnungszeitraum"):

[Im Fall von festverzinslichen Pfandbriefen, falls die festgelegte Währung Euro ist und Actual/Actual (ICMA) anwendbar ist:

- (2) Im Fall von Pfandbriefen, bei denen die Zinslaufperiode länger ist als die Feststellungsperiode, in die das Ende der Zinslaufperiode fällt, die Summe

der Anzahl der Tage in der Zinslaufperiode, die in die Feststellungsperiode fallen, in welcher die Zinslaufperiode beginnt, geteilt durch das Produkt (x) der Anzahl der Tage in der Feststellungsperiode und (y) der Anzahl von Feststellungsterminen (wie in §3(1) definiert) in einem Kalenderjahr; und

der Anzahl der Tage in der Zinslaufperiode, die in die nächste Feststellungsperiode fallen, geteilt durch das Produkt (x) der Anzahl der Tage in dieser Feststellungsperiode und (y) der Anzahl von Feststellungsterminen (wie in §3(1) definiert angegeben) in einem Kalenderjahr.

"Screen Page" means [**relevant Screen Page**] or any successor page thereto.

If the Screen Page is not available or if no such quotation appears or as at such time, the Calculation Agent shall request the principal [London] [**other relevant location**] office [in the Euro-zone] of each of the Reference Banks (as defined below) to provide the Calculation Agent with its offered quotation (expressed as a percentage rate per annum) for deposits in the Specified Currency for the relevant Interest Period to leading banks in the [London] [**other relevant location**] interbank market [of the Euro-zone] at approximately 11:00 a.m. ([Brussels] [London] time) on the Interest Determination Date. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Period shall be the arithmetic mean (rounded, if necessary, to the nearest one [**if the Reference Rate is EURIBOR**³⁴: thousandth of a percentage point, with

³⁴ Euro Inter Bank Offered Rate

0.0005] [if the Reference Rate is LIBOR: hundred-thousandth of a percentage point, with 0.000005] being rounded upwards) of such offered quotations [if Margin: [plus] [minus] the Margin], all as determined by the Calculation Agent.

If on any Interest Determination Date only one or none of the Reference Banks provides the Calculation Agent with such offered quotations as provided in the preceding paragraph, the Rate of Interest for the relevant Interest Period shall be the rate per annum which the Calculation Agent determines as being the arithmetic mean (rounded, if necessary, to the nearest one [if the Reference Rate is EURIBOR: thousandth of a percentage point, with 0.0005] [if the Reference Rate is LIBOR: hundred-thousandth of a percentage point, with 0.000005] being rounded upwards) of the rates, as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, as at 11.00 a.m. ([Brussels] [London] time) on the relevant Interest Determination Date, deposits in the Specified Currency for the relevant Interest Period by leading banks in the [London] [other relevant location] interbank market [of the Euro-zone] [in the case of Margin: [plus] [minus] the Margin] or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for the relevant Interest Period, or the arithmetic mean (rounded as provided above) of the offered rates for deposits in the Specified Currency for the relevant Interest Period, at which, on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for such purpose) inform(s) the Calculation Agent it is or they are quoting to leading banks in the [London] [other relevant location] interbank market [of the Euro-zone] (or, as the case may be, the quotations of such bank or banks to the Calculation Agent) [in the case of Margin: [plus] [minus] the Margin]. If the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be the offered quotation or the arithmetic mean of the offered quotations on the Screen Page, as described above, on the last day preceding the Interest Determination Date on which such quotations were offered [in the case of Margin: [plus] [minus] the Margin (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period in place of the Margin relating to that last preceding Interest Period)].

As used herein, "Reference Banks" means [if no other Reference Banks are specified in the Final Terms: those offices of four of such banks designated by the Issuer whose offered rates were used to determine such quotation when such quotation last appeared on the Screen Page] [if other Reference Banks are specified in the Final Terms].

If (i) it becomes unlawful for the Issuer or the Calculation Agent to use the Reference Rate, (ii) the administrator of the Reference Rate ceases to calculate and publish the Reference Rate permanently or for an indefinite period of time, (iii) the administrator of the Reference Rate becomes insolvent or an insolvency, a bankruptcy, restructuring or similar proceeding (affecting the administrator) is commenced by the administrator or its supervisory or regulatory authority, or (iv) the Reference Rate is otherwise being discontinued or otherwise ceases to be provided (each of the events in (i) through (iv) a "**Discontinuation Event**"), the Reference Rate shall be replaced with a rate determined by the Issuer as follows (the "**Successor Reference Rate**"):

(I) The Reference Rate shall be replaced with the reference rate which is announced by the administrator of the Reference Rate, the competent central bank or a regulatory or supervisory authority as the successor rate for the Reference Rate for the term of the Reference Rate and which can be used in accordance with applicable law; or (if such a successor rate can not be determined)

(II) the Reference Rate shall be replaced with an alternative reference rate, which is or will be

commonly used (in accordance with applicable law) as a reference rate for a comparable term for floating rate Pfandbriefe in the respective currency; or (if such an alternative reference rate can not be determined)

(III) the Reference Rate shall be replaced with a rate, which is determined by the Issuer in its reasonable discretion (*billiges Ermessen*) with regard to the term of the Reference Rate and the relevant currency in a commercially reasonable manner based on the general market interest levels in the Federal Republic of Germany.

The Issuer shall also determine which screen page or other source shall be used in connection with such Successor Reference Rate (the "**Successor Screen Page**"). From the date of the determination of the Successor Reference Rate (the "**Relevant Date**") any reference to the Reference Rate shall be read as a reference to the Successor Reference Rate and any reference to the Screen Page herein shall from the Relevant Date on be read as a reference to the Successor Screen Page and the provisions of this paragraph shall apply mutatis mutandis. The Issuer informs the Calculation Agent of all specifications made. The Calculation Agent shall thereafter inform the Pfandbriefholders in accordance with § [10]. The Successor Reference Rate starts to apply from the first day of the first Interest Period following the Discontinuation Event unless the Issuer elects to redeem the Pfandbriefe in accordance with the provisions of this paragraph below.

Further and in addition to any replacement of the Reference Rate with a Successor Reference Rate the Issuer may specify an interest adjustment factor or fraction or spread (to be added or subtracted) which shall be applied in determining the Rate of Interest and calculating the Interest Amount, for the purpose of achieving a result which is consistent with the economic substance of the Pfandbriefe before the Discontinuation Event occurred, and which shall take into account the interests of the Issuer and the Pfandbriefholders and shall be an economic equivalent for the Issuer and the Pfandbriefholders.

If a Discontinuation Event occurs and a Successor Reference Rate can not be determined pursuant to (I), (II) or (III) above, the Issuer may redeem the Pfandbriefe early in whole but not in part. Notice of such redemption shall be given by the Issuer to the Pfandbriefholders in accordance with § [10]. Such notice shall specify:

(i) the Series of Pfandbriefe subject to redemption; and

(ii) the redemption date, which shall be [a date not later than the second Interest Payment Date following the Discontinuation Event and] not less than [**insert Minimum Notice to Pfandbriefholders**] nor more than [**insert Maximum Notice to Pfandbriefholders**] [days] [TARGET 2 Business Days] after the date on which notice is given by the Issuer to the Pfandbriefholders.

If the Issuer elects to redeem the Pfandbriefe the Rate of Interest applicable from the first Interest Payment Date following the Discontinuation Event until the redemption date shall be [the Rate of Interest applicable to the immediately preceding Interest Period][the offered quotation or the arithmetic mean of the offered quotations on the Screen Page, as described above, on the last day preceding the Interest Determination Date on which such quotations were offered [**in the case of Margin:** [plus] [minus] the Margin (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period in place of the Margin relating to that last preceding Interest Period)]. [**in the case of a Margin being added:** In case the relevant quotation will be less than zero, the Margin will be applied against such quotation. The Margin will thereby be reduced.] [**•**] The Rate of Interest will never be less than 0 (zero).]

[In the case of the Euro-zone interbank market: "Euro-zone" means the region comprised of those member states of the European Union that have adopted, or will have adopted from time to time, the single currency in accordance with the Treaty establishing the European Community (signed in Rome on March 25, 1957), as amended by the Treaty on European Union (signed in Maastricht on February 7, 1992) and the Amsterdam Treaty of October 2, 1997, as further amended from time to time.]

[If Minimum and/or Maximum Rate of Interest applies:

- (3) *[Minimum] [and] [Maximum] Rate of Interest.*

[If Minimum Rate of Interest applies: If the Rate of Interest in respect of any Interest Period determined in accordance with the above provisions is less than **[Minimum Rate of Interest]**, the Rate of Interest for such Interest Period shall be **[Minimum Rate of Interest].**]

[If Maximum Rate of Interest applies: If the Rate of Interest in respect of any Interest Period determined in accordance with the above provisions is greater than **[Maximum Rate of Interest]**, the Rate of Interest for such Interest Period shall be **[Maximum Rate of Interest].**]]

Each Interest Amount shall be calculated by applying the Rate of Interest and the Day Count Fraction (as defined below) to each Specified Denomination and rounding the resultant figure **[if the Specified Currency is Euro:** to the nearest 0.01 Euro, 0.005 Euro being rounded upwards.] **[if the Specified Currency is not Euro:** to the nearest unit of the Specified Currency, with 0.5 of such unit being rounded upwards.]

- (7) *Accrual of Interest.* The Pfandbriefe shall cease to bear interest from their due date for redemption. If the Issuer shall fail to redeem the Pfandbriefe when due, interest shall continue to accrue on the outstanding principal amount of the Pfandbriefe beyond the due date until actual redemption of the Pfandbriefe. The applicable Rate of Interest will be determined in accordance with this § 3. This does not affect any additional rights that might be available to the Pfandbriefholders.^{35]}

[(C) In the case of Zero Coupon Pfandbriefe:

Form of Final Terms

The relevant Final Terms are issued to give details of an issue of Notes under the Euro 4,000,000,000 Debt Issuance Programme of Sparkasse KölnBonn (the "**Programme**") and are to be read in conjunction with the Terms and Conditions of the Notes (the "**Terms and Conditions**") set forth in the Prospectus dated June 16, 2020 (as supplemented from time to time) pertaining to the Programme. Capitalised Terms shall have the meanings specified in the Terms and Conditions.

All references in the relevant Final Terms to numbered Articles and sections are to Articles and sections of the Terms and Conditions.

The Form of Final Terms comprises elements which, due to a set up of provisions in an optional manner, may not be relevant for certain issues of Notes. Such elements which are not relevant and which are put into square brackets will be deleted with regard to a specific issue of Notes. All provisions in the Terms and Conditions corresponding to items in the relevant Final Terms which refer to information set-out as optional information and which are deleted with regard to a specific issue of Notes shall be deemed to be deleted from the terms and conditions applicable to the Notes (the "**Conditions**"). *For the avoidance of doubt*, text comprised in the Form of Final Terms which is not set out in square brackets ("[]") because it is not set out as optional information may not be deleted in Final Terms which relate to a specific issue of Notes.

FORM OF FINAL TERMS
(MUSTER – ENDGÜLTIGE BEDINGUNGEN)

[PROHIBITION OF SALES TO EEA AND UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and, should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA") or in the United Kingdom ("UK"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "MiFID II"); (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended, the "Insurance Distribution Directive"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended or superseded, the "Prospectus Regulation"). Consequently no key information document required by Regulation (EU) No 1286/2014 (the "PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the EEA or in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA or in the UK may be unlawful under the PRIIPS Regulation.¹

[MiFID II PRODUCT GOVERNANCE / PROFESSIONAL INVESTORS AND ELIGIBLE COUNTERPARTIES ONLY TARGET MARKET – Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the [Notes][Pfandbriefe] has led to the conclusion that: (i) the target market for the [Notes][Pfandbriefe] is eligible counterparties and professional clients only, each as defined in Directive 2014/65/EU (as amended, "MiFID II"); and (ii) all channels for distribution to eligible counterparties and professional clients are appropriate. *[Consider any negative target market.]* Any person subsequently offering, selling or recommending the [Notes][Pfandbriefe] (a "distributor") should take into consideration the manufacturer['s/s'] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the [Notes] [Pfandbriefe] (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels.]

These Final Terms have been prepared for the purpose of Article 8(5) of Regulation (EU) 2017/1129 of the European Parliament and of the Council of 14 June 2017, as amended or superseded and must be read together with the Prospectus and its supplements, if any. Full information on the Issuer and the offer of the [Notes] [Pfandbriefe] is only available on the basis of the combination of these Final Terms and the Prospectus dated June 16, 2020, including any supplements thereto, if any (the "Prospectus"). The validity of the Prospectus will expire on 15 June 2021. These Final Terms [and][,] the Prospectus [and the supplement dated [●] [, the supplement dated [●]] [and the supplement dated [●]]] have been or will be published, as the case may be, on the website of the Issuer (www.sparkasse-koelnbonn.de).

General Information with
regard to Pfandbriefe***

GENERAL INFORMATION WITH REGARD TO PFANDBRIEFE

The following is a description condensed to some of the more fundamental principles governing the law regarding Pfandbriefe and Pfandbrief Banks in summary form and without addressing all the laws' complexities and details. Accordingly, it is qualified in its entirety by reference to the applicable laws.

Introduction

The Pfandbrief operations of the Issuer are based on the German Pfandbrief Act (*Pfandbriefgesetz*) in its most recent version (the "**Pfandbrief Act**"). The following information is based on the Pfandbrief Act as in force as of the date of this Prospectus.

All German credit institutions are permitted, subject to authorisation and further requirements of the Pfandbrief Act, to engage in the Pfandbrief business and to issue Mortgage Pfandbriefe (*Hypothekenpfandbriefe*), Public Pfandbriefe (*Öffentliche Pfandbriefe*) as well as Ship Pfandbriefe (*Schiffspfandbriefe*) and Aircraft Pfandbriefe (*Flugzeugpfandbriefe*).

German credit institutions wishing to take up the Pfandbrief business must obtain special authorisation under the German Banking Act (*Kreditwesengesetz* – the "**Banking Act**") from the Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht*, "**BaFin**") and, for that purpose, must meet some additional requirements as specified in the Pfandbrief Act.

For the purpose of this overview, banks authorised to issue Pfandbriefe will generally be referred to as "**Pfandbrief Banks**" which is the term applied by the Pfandbrief Act.

Rules applicable to all types of Pfandbriefe

Pfandbriefe are standardised debt instruments issued by a Pfandbrief Bank. The quality and standards of Pfandbriefe are strictly governed by provisions of the Pfandbrief Act and are subject to the supervision of the BaFin. Pfandbriefe generally are medium- to long-term bonds, typically with an original maturity of two to ten years, which are secured or "covered" at all times by a pool of specified qualifying assets (*Deckung*), as described below. Pfandbriefe are recourse obligations of the issuing bank, and no separate vehicle is created for their issuance generally or for the issuance of any specific series of Pfandbriefe. Traditionally, Pfandbriefe have borne interest at a fixed rate, but Pfandbrief Banks are also issuing zero-coupon and floating rate Pfandbriefe, in some cases with additional features such as step-up coupons, caps or floors. Most issues of Pfandbriefe are denominated in Euro. A Pfandbrief Bank may, however, also issue Pfandbriefe in other currencies, subject to certain limitations. Pfandbriefe may not be redeemed at the option of the Noteholders prior to maturity.

Pfandbriefe may either be Mortgage Pfandbriefe, Public Pfandbriefe, Ship Pfandbriefe or Aircraft Pfandbriefe. The outstanding Pfandbriefe of any one of these types must be covered by a separate pool of specified qualifying assets: a pool for Mortgage Pfandbriefe only, a pool for Public Pfandbriefe only, a pool covering all outstanding Ship Pfandbriefe only, and a pool covering all outstanding Aircraft Pfandbriefe (each a "**Cover Pool**"). An independent trustee (*Treuhänder*) appointed by the BaFin has wide responsibilities in monitoring compliance by the Pfandbrief Bank with the provisions of the Pfandbrief Act. In particular, the trustee monitors that the prescribed cover is maintained and that the cover assets are recorded in a register listing the assets provided as cover from time to time in respect of the Pfandbriefe of the relevant type; such register is maintained by the Pfandbrief Bank.

The aggregate principal amount of assets in each Cover Pool must at all times at least be equal to the

aggregate principal amount of the outstanding Pfandbriefe covered by such Cover Pool. Moreover, the aggregate interest yield on any such Pool must at all times be at least equal to the aggregate interest payable on all Pfandbriefe covered by such Cover Pool. In addition, the coverage of all outstanding Pfandbriefe with respect to principal and interest must also at all times be ensured on the basis of the present value (*Barwert*). Finally, the present value of the assets contained in the Cover Pool must exceed the total amount of liabilities from the corresponding Pfandbriefe and derivatives by at least 2 per cent (*sichernde Überdeckung*).

Such 2 per cent excess cover must consist of highly liquid assets. Qualifying assets for the excess cover are (i) debt securities of the Federal Republic of Germany, a special fund of the Federal Republic of Germany, a German state, the European Communities, the member states of the European Union, the states comprising the European Economic Area, the European Investment Bank, the International Bank for Reconstruction and Development (IBRD), the Council of Europe Development Bank, or the European Bank for Reconstruction and Development, as well as under certain circumstances debt securities of Switzerland, the United Kingdom of Great Britain and Northern Ireland, the United States of America, Canada or Japan, if such countries have been allocated a risk weight equal to a rating of level 1 obtained from an international rating agency and as set out in regulation no. 575/2013; (ii) debt securities guaranteed by any of the foregoing entities; and (iii) credit balances maintained with the European Central Bank, the central banks of the member states of the European Union or appropriate credit institutions which have their corporate seat in a country listed under (i) above if such credit institutions have been allocated a risk weight equal to a rating of level 1 obtained from an international rating agency and as set out in regulation no. 575/2013 (and the claims satisfy certain criteria).

The Pfandbrief Bank must record in the register of cover assets for any Cover Pool of a given Pfandbrief type each asset and the liabilities arising from derivatives. Derivatives may be entered in such register only with the consent of the trustee and the counterparty.

The Pfandbrief Bank must have an appropriate risk management system meeting the requirements specified in detail in the Pfandbrief Act and must comply with comprehensive disclosure requirements on a quarterly and annual basis set out in detail in the Pfandbrief Act.

Cover Pool for Mortgage Pfandbriefe

The principal assets qualifying for the Cover Pool for Mortgage Pfandbriefe are loans secured by mortgages which may serve as cover up to the initial 60 per cent of the value of the property, as assessed by experts of the Pfandbrief Bank not taking part in the credit decision in accordance with comprehensive evaluation rules designed to arrive at the fair market value of the property. Moreover, building structures connected firmly with the mortgaged property taken into account as augmenting the value must be adequately insured against relevant risks in an amount covering at least the estimated costs for repair or reconstruction in case of damage or loss or the loan amount outstanding from time to time.

The underlying property must be situated in a state of the European Economic Area, the United Kingdom, Switzerland, the United States of America, Canada, Japan, Australia, New Zealand or Singapore. Furthermore, the registered cover pool assets include all claims of the Pfandbrief Bank directed to the economic substance of the property.

Other assets qualifying for inclusion in the cover pool for Mortgage Pfandbriefe include, among others:

(i) equalisation claims converted into bearer bonds, (ii) subject to certain qualifications, those assets which may also be included in the 2 per cent excess cover described above, up to a total sum of 10 per cent of the aggregate principal amount of outstanding Mortgage Pfandbriefe; (iii) the assets which may also be included in the Cover Pool for Public Pfandbriefe referred to below (resulting from bonds), up

to a total of 20 per cent of the aggregate principal amount of outstanding Mortgage Pfandbriefe, whereby the assets pursuant to (ii) above will be deducted and (iv) claims arising under interest rate and currency swaps as well as under other qualifying derivatives contracted under standardised master agreements with certain qualifying counterparties, provided that it is assured that the claims arising under such derivatives will not be prejudiced in the event of the insolvency of the Pfandbrief Bank or any other Cover Pool maintained by it. The amount of the claims of the Pfandbrief Bank arising under derivatives which are included in the Cover Pool measured against the total amount of all assets forming part of the Cover Pool as well as the amount of the liabilities of the Pfandbrief Bank arising from such derivatives measured against the aggregate principal amount of the outstanding Mortgage Pfandbriefe plus the liabilities arising from derivatives may in either case not exceed 12 per cent, calculated in each case on the basis of the net present values.

Cover Pool for Public Sector Pfandbriefe

The Cover Pool for Public Sector Pfandbriefe may comprise money claims resulting from loans, bonds or a comparable transaction or other money claims acknowledged in writing as being free from defences if they are directed against an eligible debtor or for which an eligible debtor has assumed a full guarantee.

Eligible debtors are, *inter alia*: (i) German regional and local authorities and public law entities for which a maintenance obligation (*Anstaltslast*) or a guarantee obligation (*Gewährträgerhaftung*) or another state refinancing guarantee applies or which are legally entitled to raise fees, rates and other levies, (ii) the EU/EEA countries as well as their central banks, (iii) regional governments and regional and local authorities of the afore-mentioned states, (iv) Switzerland, the United Kingdom, the United States, Canada and Japan and their central banks provided they have been assigned a risk weight equal to a credit quality of level 1 obtained from an international rating agency and as set out in regulation no. 575/2013, (v) regional governments and regional and local authorities of the afore-mentioned states that have been equated with the relevant central government or have been assigned a risk weight equal to a credit quality of level 1 obtained from an international rating agency and as set out in regulation no. 575/2013, (vi) the European Central Bank, multilateral development banks and international organisations (as defined in regulation no. 575/2013) as well as the European Stability Mechanism, (vii) public sector entities that are located within the EU/EEA, (viii) public sector entities within the meaning of regulation no. 575/2013 (i.e., non-commercial administrative bodies responsible to central governments, regional governments or local authorities, or authorities that exercise the same responsibilities as regional and local authorities, or non-commercial undertakings owned by central governments that have explicit guarantee arrangements, including self ad-ministered bodies under public supervision) that are located within Switzerland, the United Kingdom, the United States, Canada or Japan *provided that*, they have been assigned a risk weight equal to credit quality of level 1 obtained from an international rating agency and as set out in regulation no. 575/2013. However, public sector entities are only eligible to the extent the relevant claim is owed by them but not as guarantors of claims.

The Cover Pool may furthermore include, *inter alia*, the following substitute assets: (i) equalisation claims converted into bearer bonds; (ii) money claims against the European Central Bank, a central bank of an EU member state or a suitable credit institution, in as much as the amount of the claims of the Pfandbrief Bank is known at the time of purchase; and (iii) claims arising under certain derivatives contracted under standardised master agreements with certain qualifying counterparties, *provided that* it is assured that the claims arising under such derivatives will not be prejudiced in the event of the insolvency of the Pfandbrief Bank or any other Cover Pool maintained by it (and subject to the 12 per cent. threshold as described in case of Mortgage Pfandbriefe above).

Cover Assets in the United Kingdom

Cover assets registered until the withdrawal of the United Kingdom in accordance with the above mentioned provisions of the Pfandbrief Act which are secured by properties or rights equivalent to real

property located in the United Kingdom or leveled against the United Kingdom or its public authorities (if permissible) or guaranteed by such public authorities, remain eligible as cover. In addition, such assets included in cover until the withdrawal may not be applied against the above-mentioned limit of 10 per cent. for cover assets for which the preferential right of the Pfandbrief creditors is not ensured.

Status and protection of the Pfandbrief Holders

The Noteholders of outstanding Pfandbriefe of each class rank *pari passu* among themselves, and have preferential claims with respect to the assets registered in the relevant cover register. With respect to other assets of a Pfandbrief Bank, holders of Pfandbriefe rank *pari passu* with unsecured creditors of the Pfandbrief Bank.

Insolvency proceedings

In the event of the institution of insolvency proceedings over the assets of the Pfandbrief Bank, the assets registered in the relevant cover register for any Cover Pool maintained by it would not be part of the insolvency estate, and, therefore, such insolvency would not automatically result in an insolvency of any Cover Pool. Only if at the same time or thereafter the relevant Cover Pool were to become insolvent, separate insolvency proceedings would be initiated over the assets of such Cover Pool by the BaFin. In this case, Noteholders would have the first claim on the respective Cover Pool. Their preferential right would also extend to interest on the Pfandbriefe accrued after the commencement of insolvency proceedings. Claims of counterparties to derivatives included in the respective Cover Pool would rank *pari passu* with these rights and claims of the Noteholders and claims of Administrators (as defined below) for remuneration and expenses would be satisfied before.

Furthermore, but only to the extent that Noteholders suffer a loss, Noteholders would also have recourse to any assets of the Pfandbrief Bank not included in the Cover Pools. As regards those assets, Noteholders would rank equal with other unsecured and unsubordinated creditors of the Pfandbrief Bank.

One to three administrators (*Sachwalter*, each an "**Administrator**") will be appointed in the case of the insolvency of the Pfandbrief Bank to administer each Cover Pool for the sole benefit of the holders of related Pfandbriefe. The Administrator will be appointed by the court having jurisdiction pursuant to the German Insolvency Code (*Insolvenzordnung*) at the request of the BaFin before or after the institution of insolvency proceedings. The Administrator will be subject to the supervision of the court and also of the BaFin with respect to the duties of the Pfandbrief Bank arising in connection with the administration of the assets included in the relevant Cover Pool. The Administrator will be entitled to dispose of the Cover Pool's assets and receive all payments on the relevant assets to ensure full satisfaction of the claims of the Noteholders. To the extent, however, that those assets are obviously not necessary to satisfy such claims, the insolvency receiver of the Pfandbrief Bank is entitled to demand the transfer of such assets to the Pfandbrief Bank's insolvency estate.

Subject to the consent of the BaFin, the Administrator may transfer all or part of the cover assets and the liabilities arising from the Pfandbriefe issued against such assets to another Pfandbrief Bank.

On December 9, 2010, the Pfandbrief Act has been amended in order to strengthen the protection of rights of Pfandbriefe holders by integrating a provision which clarifies that measures that may be implemented on the basis of the German Bank Restructuring Act (*Kreditinstitute-Reorganisationsgesetz*) do not apply to the Pfandbrief business of the respective credit institution, but only to the remaining part of the business of the respective credit institution, and it was further amended on December 10, 2014 to provide that, should the resolution authority, in effecting a transfer within the meaning of § 107 of the German Recovery and Resolution Act (*Sanierungs- und Abwicklungsgegesetz*), include provisions to transfer the bank's Pfandbrief business, whether in whole or in part, this transfer shall, in deviation from § 114 par. 2 of the Recovery and Resolution Act, be

carried out in accordance with §§ 30 to 36 Pfandbrief Act.

Jumbo-Pfandbriefe

Jumbo-Pfandbriefe are governed by the same laws as Pfandbriefe and therefore cannot be classified as a type of securities apart from Pfandbriefe. However, in order to improve the liquidity of the Pfandbrief market certain Pfandbrief Banks have agreed upon certain minimum requirements for Jumbo-Pfandbriefe (*Mindeststandards von Jumbo-Pfandbriefen*) (the "**Minimum Requirements**") applicable to such Pfandbriefe which are issued as Jumbo-Pfandbriefe. These Minimum Requirements are not statutory provisions. Instead, they should be regarded as voluntary self-restrictions which limit the options issuers have when structuring Jumbo-Pfandbriefe. An overview of some of the Minimum Requirements is set out below:

- (a) The minimum issue size of a Jumbo-Pfandbrief is EUR 1,000,000,000 If the minimum size is not reached with the initial issue, a Pfandbrief may be increased by way of a tap issue in order to give it Jumbo-Pfandbrief status, provided all the requirements stated under (b) to (g) are fulfilled.
- (b) Only Pfandbriefe of straight bond format (i.e. fixed coupon payable annually in arrear, bullet redemption) may be offered as Jumbo-Pfandbriefe.
- (c) Jumbo-Pfandbriefe must be listed on an organised market in a Member State of the European Union or in another Contracting State of the Agreement on the European Economic Area immediately after issue, although not later than 30 calendar days after the settlement date.
- (d) Jumbo-Pfandbriefe must be placed by a syndicate consisting of at least five banks (syndicate banks).
- (e) The syndicate banks act as market makers; in addition to their own system, they pledge to quote prices upon application and bid/ask (two-way) prices at the request of investors on an electronic trading platform and in telephone trading.
- (f) The syndicate banks pledge to report daily for each Jumbo-Pfandbrief outstanding (life to maturity from 24 months upwards) the spread versus asset swap. The average spreads, which are calculated for each Jumbo-Pfandbrief by following a defined procedure, are published on the website of the Verband Deutscher Pfandbriefbanken (www.pfandbrief.de).
- (g) A subsequent transfer to the name of an investor is not permitted (restriction on transferability). It is permitted to buy back securities for redemption purposes or in the context of monitoring the cover pool if the outstanding volume of the issue does not fall below EUR 1,000,000,000 at any time. The issuer must publicly announce any buyback, the planned volume thereof and the issue envisaged for repurchase at least 3 banking days in advance and make sure that extensive transparency is given in the market. Once a buyback transaction has been carried out, it is not permitted to increase the issue in question for a period of one year.
- (h) If one of the requirements stated in the above provisions is not met, the issue will lose its Jumbo-Pfandbrief status. Jumbo-Pfandbriefe which were issued before April 28, 2004 and have a volume of less than EUR 1,000,000,000 retain the status of a Jumbo-Pfandbrief notwithstanding (a) above, provided that the other requirements in the above provisions are fulfilled.

The Minimum Requirements are supplemented by additional recommendations (*Empfehlungen*; – "**Recommendations**") and a code of conduct applicable to issuers of Jumbo-Pfandbriefe (*Wohlverhaltensregeln für Emittenten* – "**Code of Conduct**"). Neither the Recommendations nor the Code of Conduct are statutory provisions.

3. European Economic Area and UK

Unless the Final Terms in respect of any Notes specify "Prohibition of Sales to EEA and UK Retail Investors" as "Not Applicable", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by the Prospectus as completed by the Final Terms in relation thereto to any retail investor in the European Economic Area or in the United Kingdom. For the purposes of this provision:

- (a) the expression "retail investor" means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or
 - (ii) a customer within the meaning of Directive (EU) 2016/97 (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (the "**Prospectus Regulation**"); and
- (b) the expression an "offer" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes.

If the Final Terms in respect of any Notes specify "Prohibition of Sales to EEA and UK Retail Investors" as "Not Applicable", in relation to each Member State of the European Economic Area and the United Kingdom (each a "**Relevant State**"), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Prospectus as completed by the final terms in relation thereto to the public in that Relevant State except that it may make an offer of such Notes to the public in that Relevant State:

- (i) if the final terms in relation to the Notes specify that an offer of those Notes may be made other than pursuant to Article 1(4) of the Prospectus Regulation in that Relevant State (a "**Non-exempt Offer**"), following the date of publication of a prospectus in relation to such Notes which has been approved

by the competent authority in that Relevant State or, where appropriate, approved in another Relevant State and notified to the competent authority in that Relevant State, provided that any such prospectus has subsequently been completed by the final terms contemplating such Non-exempt Offer, in accordance with the Prospectus Regulation, in the period beginning and ending on the dates specified in such prospectus or final terms, as applicable, and the Issuer has consented in writing to its use for the purpose of that Non-exempt Offer;

- (ii) at any time to any legal entity which is a qualified investor as defined in the Prospectus Regulation;
- (iii) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or

provided that no such offer of Notes referred to in (ii) to (iv) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision the expression an "**offer of Notes to the public**" in relation to any Notes in any Relevant State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes and the expression "**Prospectus Regulation**" means Regulation (EU) 2017/1129.

- (b) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which Section 21(1) of the FSMA does not apply to the Issuer; and
- (c) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes in, from or otherwise involving the United Kingdom.

The Independent Auditor audits the Issuer on an annual basis and is empowered to carry out unexpected audits from time to time.

2. Information about Sparkasse KölnBonn

General

Sparkasse KölnBonn emerged on January 1, 2005 when Stadtsparkasse Köln ("**Stadtsparkasse Köln**"), established in 1826, took over Sparkasse Bonn ("**Sparkasse Bonn**"), established in 1971. Sparkasse KölnBonn is registered with the Commercial Register (*Handelsregister*) of the Local Court (*Amtsgericht*) of Cologne under number HRA 7961.

The responsible body (*Träger*) for Sparkasse KölnBonn is the savings banks special purpose association (*Zweckverband Sparkasse KölnBonn*, the "**Special Purpose Association**") in which the City of Cologne holds an interest of 70.0 per cent and the City of Bonn holds an interest of 30.0 per cent.

The Issuer is a public law institution (*rechtsfähige Anstalt des öffentlichen Rechts*) established under the laws of North Rhine-Westphalia, a federal state of the Federal Republic of Germany, and acts under the legal system of Germany.

Its registered office is located at Hahnenstrasse 57, D 50667 Cologne. The telephone number of the Issuer's principal office is +49 (0)221-226-0. The Issuer is a savings bank (*Sparkasse*).

The Issuer is subject to the Savings Banks Act (*Sparkassengesetz Nordrhein-Westfalen*). Furthermore, the Issuer is governed by its charter which, according to the Savings Banks Act, is adopted by the corporate body representing the responsible body (*Träger*) (the "**Assembly of the Special Purpose Association**" (*Zweckverbandsversammlung des Sparkassenzweckverbandes*)). According to § 6(2) of the Savings Banks Act amendments to the charter also fall into the jurisdiction of the Assembly of the Special Purpose Association. The adoption of the charter and any amendments thereto and supplements thereof in addition require the consent of the Ministry of Finance (*Finanzministerium*) of the Federal State of North Rhine-Westphalia which is responsible for the supervision of the Issuer.

The Issuer is subject to state supervision by the Ministry of Finance of North Rhine-Westphalia (savings banks supervisory authority (*Sparkassenaufsichtsbehörde*))). Furthermore, the Bundesanstalt für Finanzdienstleistungsaufsicht, the federal authority in which, inter alia, supervisory responsibilities are vested under the German Banking Act (*Gesetz über das Kreditwesen*, the "**Banking Act**"), currently exercises its supervisory powers on the Issuer as a credit institution on a day-to-day basis. Further, the European Central Bank ("**ECB**") is empowered to, in accordance with and under the conditions of the European single supervisory mechanism ("**SSM**"), directly becoming the competent supervisory authority regarding the Issuer in the future. The SSM is, inter alia, legally based on the

The Savings Banks Finance Group has modified its proven Institutional Protection Scheme to meet the statutory requirements, and the scheme has been recognised as a deposit guarantee scheme under the Deposit Guarantee Act (EinSiG). The key objective of the Institutional Protection Scheme is to protect the member savings banks themselves, especially their liquidity and solvency. It offers assistance in case of threatening or existing economic problems of such institutions and therefore avoids having to use the deposit guarantee scheme under the Deposit Guarantee Act. It protects deposits by customers with the member savings banks (balance sheet item "**Liabilities to Customers**", i. e. to private individuals, commercial enterprises, public authorities) and bonds issued by the member savings banks which are held by customers. Deposits by customers specifically include savings deposits, savings bank certificates, time deposits, sight deposits and bearer bonds. Also protected are liabilities to capital investment companies and their depositary banks (balance sheet item "**Liabilities to banks**") to the extent they form part of the fund's assets as well as funds which are made available to the member savings banks by credit institutions outside the Sparkassen-Finanzgruppe for purposes for which public subsidies are available (e.g. from the Reconstruction Loan Corporation (*Kreditanstalt für Wiederaufbau*)).

3. Business Overview

The Issuer may establish branches within the business territory and conduct the entire customary banking business within the scope of the laws applicable to it.

Key Markets

To ensure the "**principle of regionalism**" (*Regionalprinzip*) as a general principle of German savings banks law the Savings Banks Regulation, *inter alia*, governs the lending business of the savings banks. In accordance therewith the Issuer may extend loans to borrowers having their seat or an office outside the territory defined in the savings bank's charter (defined territory) within the European Union provided the savings bank continues to operate the lending business predominantly within the defined territory thus preserving the focus on the satisfaction of the demands of the region.

With regard to real estate loans, secured personal loans and investments the defined territory covers the territory of the responsible body (*Träger*) and the territory of the administrative districts of Cologne, Düsseldorf, Koblenz and Trier which is the territory of the former Rhine Province.

4. Organisational Structure

Subsidiaries

Sparkasse KölnBonn is the parent company within the Financial Group Sparkasse KölnBonn.

In the financial year 2012, the Issuer carried out various corporate transactions in order to streamline the shareholding structure. Business areas, which were, to date, operated by the Issuer's subsidiaries, have now been taken over by Sparkasse KölnBonn. Such transactions have been mostly concluded with the takeover of "**Pilgrim Zweite Vermögensverwaltungsgesellschaft mbH & Co KG**" at the beginning of the financial year 2013. By such transactions, the shareholdings have been reduced to the extent that, from the beginning of 2012, the preparation of consolidated financial statements according to § 290 of the German Commercial Code (*HGB – Handelsgesetzbuch*) is no longer required. Upon conclusion of the corporate transactions, the remaining 7 subsidiaries are owned by the Issuer by a majority and, according to § 296 para. 2 HGB, do no longer have to be incorporated in the consolidated financial statements, since, as a whole, they are only of minor importance for the provision of a true and fair view of the assets, the financial position and the earnings of the Issuer.

As of February 26, 2020, the directly wholly owned subsidiaries of the Issuer were the following:

Company	Capital Investment in per cent.
GKS – Gesellschaft für KontoService mbH.....	100.00 per cent.
GLORIA Beteiligungsgesellschaft mbH.....	100.00 per cent.

Outlook

The global economy was characterized by a weakening growth in 2019 compared to previous years. Particularly, the continuous trade war between China and US burdens the worldwide economic development. In the near future, the UK's Exit from the EU ("Brexit"), tendencies to economic

isolationism in the US and other industrial countries as well as geopolitical tensions might constitute a challenge.

The Cologne/Bonn region is expected to benefit from a robust regional economy and a growing population.

Notably, the prolonged low-interest-rate phase in the euro area remains a burden for the banking sector.

Legal and Arbitration Proceedings

The Issuer confirms that during a period covering the previous 12 months as from the date of this Prospectus, neither the Issuer nor Financial Group Sparkasse KölnBonn has been involved in any governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which either the Issuer or Financial Group Sparkasse KölnBonn is aware), which may have or have had significant effects on the financial position or profitability of the Issuer or Financial Group Sparkasse KölnBonn.

Issuer's Financial or Trading Position

Financial position of Sparkasse KölnBonn

There has been no significant change in the financial position of Sparkasse KölnBonn since December 31, 2019.

Trading position of Sparkasse KölnBonn

In 2010, Sparkasse KölnBonn limited its proprietary trading activities to sales-oriented transactions for customers in the context of its strategic realignment. All trading securities as of January 1, 2013 were reclassified as non-trading securities for commercial law purposes.

Recent Developments

Renewal of Sparkasse KölnBonn's business strategy

Sparkasse KölnBonn is currently working on the implementation of a new business strategy to ensure its market position and profitability for the future. The new strategy is oriented even further towards the interests of customers. Central objectives are for example the increase of profits across all segments, cost savings, optimization of RWAs and enhancement of customer satisfaction.

Portigon AG, formerly Westdeutsche Landesbank AG (WestLB AG)

In November 2009, the former shareholders of Portigon AG – including "**Rheinische Sparkassen- und Giroverband (RSGV)**", Düsseldorf (which held approx. 25.03 per cent. of the shares) – agreed with the Federal Agency for Financial Market Stabilisation (*Bundesanstalt für Finanzmarktstabilisierung – FMSA*) on steps to be taken for a transfer of the assets and liabilities of WestLB AG to a winding-up agency.

On this basis, the agreements on the establishment of the "**Erste Abwicklungsanstalt**" (EAA) were entered into in December 2009 pursuant to § 8a of the Financial Market Stabilisation Fund Act (*Finanzmarktstabilisierungsfondsgesetz*). In line with its shareholding (25.03 percent), RSGV will be obliged to assume up to a maximum amount of EUR 2.25 billion of any actual losses affecting liquidity incurred by the winding-up agency that are not covered by EAA's shareholders' equity in the amount of EUR 3 billion and any profits generated by it.

In connection with the transfer of further assets and liabilities to EAA in 2012, the liability was modified to the effect that RSGV shall be obliged, if and when necessary, to make available a maximum amount of EUR 37.5 million in the form of shareholders' equity to cover any accounting losses. The obligation to cover any actual losses affecting liquidity will be reduced by this amount so that the maximum amount of EUR 2.25 billion remains unchanged.

In line with its percentage interest in the RSGV, the indirect *pro rata* obligation of Sparkasse KölnBonn in its capacity as a member of the RSGV will be 19.9 percent. (referring to the quota concluded in 2009). Based on currently available information, no provision has to be reported with respect to this obligation in the 2013 financial statements of Sparkasse KölnBonn.

However, there is a risk of claims being asserted against Sparkasse KölnBonn corresponding to its interest in the RSGV on the basis of its indirect obligation during the EAA's winding-up period, which is expected to be lengthy. A *pro rata* provision will be set aside by Sparkasse KölnBonn from each fiscal year's profit with respect to this risk for a period of 25 years. Based on the information and expectations relating to the implementation of the winding-up plan, the provisions required in this context are scheduled to be revised by all parties involved. The 2016 revision has shown that no more provisions are necessary until further notice and no loss compensations are to be expected in connection with the winding-up plan. Additional provisions were suspended for an indefinite time, which was confirmed by the 2019 revision. As from the fiscal year 2009, a total amount of EUR 89.6 million has been appropriated to the fund for general banking risks pursuant to § 340g of the German Commercial Code (*HGB*) and remain unaffected by the suspension.

Corporate actions concerning NordLB

Together with the previous owners of NordLB, the institutional protection scheme of the German Savings Banks Association finished negotiations with the aim to strengthen the financial position of NordLB in connection with a sustainable business model. A final agreement concerning the capital strengthening was concluded by the end of 2019. Both the national and European banking supervisory authorities and the EU Commission were involved in this process. Sparkasse KölnBonn has indirectly participated in the support of NordLB via the protection schemes. The pro rata amounts attributable to Sparkasse KölnBonn were either already paid in full in 2019 or taken into account as provisions. The expenses had no negative impact on the financial situation of Sparkasse KölnBonn.

Audit of the German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht)

In 2019, the German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht) commissioned the Deutsche Bundesbank to conduct an audit in accordance with section 44(1) of the KWG. The audit covered the regularity of the business organisation in accordance with section 25a (1) KWG.

The audit report contains seven findings of medium severity and three findings with only minor effects. No significant or serious findings were made. Overall, Sparkasse KölnBonn is certified as having a proper business organisation, taking into account the type, scope, complexity and risk content of the transactions conducted in the audited areas.

After evaluation of the assumptions made by Sparkasse KölnBonn regarding the business environment and the measures introduced as a result of the strategy, in the opinion of the auditors the business model and the business and risk strategy of Sparkasse KölnBonn represent only minor risks for the viability and sustainability of the Issuer's profitability on the audit date.

Effects due to the coronavirus

The increasing spread of the coronavirus in the first quarter of 2020 and the associated pandemic will

have a significant negative impact on the overall economic development. In March 2020, legislators adopted various packages of measures to cushion the economic impact of the pandemic. The aim is to protect jobs and support companies. In this context, however, the German government also emphasized that the impact that the pandemic will have on economic development in Germany cannot yet be described in detail because meaningful economic indicators will only be available after some delay.

However, there have already been clear reactions on the capital markets. For example, the German Share Index (DAX), after its historic high at the beginning of the year, has been suffering considerable losses, especially since the beginning of March 2020. By contrast, demand for German government bonds was strong, with the result that their negative yields initially fell sharply again in most maturity ranges, although they did recover somewhat at times.

Against this background, all macroeconomic forecasts for 2020 are currently subject to significantly increased uncertainty. For this reason, it is not yet possible to comprehensively assess the possible effects on the company-specific forecasts for the 2020 financial year. However, negative deviations from our previous plans with regard to the key financial performance indicators are to be expected.

The consequences of the pandemic will affect current income (net interest income and net commission income) in particular, but also the valuation of securities investments and the necessary credit risk provisions. Slightly counteracting, relieving effects are likely to arise in other operating expenses, but this will not be able to compensate in any way for the threatening noticeable impact on earnings. For this reason, an annual result is expected for 2020 that will be significantly lower than the result of the previous financial year.

Rating of the Issuer

Moody's Deutschland GmbH ("Moody's") assigned the following rating to the Issuer:

Category	Rating
Preferred, senior unsecured long-term debt	A1
Non preferred senior unsecured long-term debt	Baa1
Subordinated long-term debt	Baa1

The following description gives an overview of the rating classes as used by Moody's:

Moody's appends long-term obligation ratings at the following levels: Aaa, Aa, A, Baa, Ba, B, Caa, Ca and C. To each generic rating category from Aa to Caa Moody's assigns the numerical modifiers "1", "2" and "3". The modifier "1" indicates that the bank is in the higher end of its letter-rating category, the modifier "2" indicates a mid-range ranking and the modifier "3" indicates that the bank is in the lower end of its letter-rating category. Moody's short-term ratings are opinions of the ability of issuers to honor short-term financial obligations and range from P-1, P-2, P-3 down to NP (not prime).

A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency. Ratings are based on current information furnished to the rating agencies by the Issuer and information obtained by the rating agencies from other sources. Because ratings may be changed, superseded or withdrawn as a result of changes in, or unavailability of, such information, a prospective purchaser should verify the current long-term ratings of the Issuer before purchasing the Notes.

Based on the provisions of Regulation (EC) No. 1060/2009 on rating agencies as amended from time to time (the "**Rating Regulation**"), certain institutions as further determined pursuant to

Article 4 (1) of the Rating Regulation which are established in the European Union (the "**Regulated Institutions**") are subject to certain restrictions with regard to the use of ratings for regulatory purposes. Pursuant to Article 4 (1) of the Rating Regulation, Regulated Institutions may use credit ratings for regulatory purposes only if such credit ratings are issued by credit rating agencies established in the European Union and registered in accordance with the Rating Regulation (or for which the relevant registration procedure is still pending). The Issuer is rated by Moody's which is established in the European Union or which has relevant subsidiaries which are established in the European Union and have been registered in accordance with the Rating Regulation.
